CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY (ISSN 0390-6663) publishes original work, preferably brief reports, in the fields of Gynecology, Obstetrics, Fetal Medicine, Gynecological Endocrinology and related subjects. (Fertility and Sterility, Menopause, Uro-gynecology, Ultrasound in Obstetrics and Gynecology, Sexually Transmitted Diseases, Reproductive Biological Section). The Journal is covered by **INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica**.

CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY is issued every three months in one volume per year by IROG CANADA Inc. Montréal. Printed in Italy by "La Garangola", Tipografia Editrice - Via E. Dalla Costa, 6 - 35129 Padova (Italy).

## EDITORIAL ARTICLE

- Ovulation defects despite regular menses: part III** 133  
 J.H. Check - *Camden, NJ (USA)*  
 Careful evaluation of follicular dynamics by serial sonography and serum estradiol, progesterone and luteinizing hormone levels can detect subtle ovulation disorders and correction allows good pregnancy rates.

## ORIGINAL ARTICLES

### *Reproductive Biology Section*

- A matched controlled study to evaluate the efficacy of acupuncture for improving pregnancy rates following in vitro fertilization-embryo transfer** 137  
 W. Wang, J.H. Check, J.R. Liss, J.K. Choe - *Camden, NJ (USA)*  
 Acupuncture performed twice weekly during the entire IVF cycle but not the day of transfer does not seem to improve outcome following IVF-ET.

### *General Section*

- Abnormal cervical smears in adolescents: A ten-year comparative study of demographic criteria and management** 139  
 M.M. Saleh, A.A. Seoud, M.S. Zahlama - *Lancashire, UK*  
 A plan of management is required to deal with the problem of abnormal cervical smears in adolescents.

- Safety and effectiveness of tinzaparin sodium in the management of recurrent pregnancy loss** 143  
 S. Dendrinou, I. Kalogirou, E. Makrakis, T. Theodoridis, E.A. Mahmoud, V. Christopoulou-Cokkinou, G. Creasas - *Athens, GREECE*  
 A 50 IU/kg daily dose of tinzaparin sodium seems to be a safe and effective option for the management of recurrent pregnancy loss.

- Cesarean section rate: much room for reduction** 146  
 M. Dabbas, A. Al-Sumadi - *Amman, JORDAN*  
 Cesarean section rate is improperly increased under certain indications. Good interpretation of these indications may decrease this rate significantly.

- Myomectomy during the first and second trimester of pregnancy** 149  
 M. Bonito, L. Gulemi, R. Basili, D. Roselli - *Rome, ITALY*  
 Myomectomy is a valid and necessary solution for pregnant symptomatic women resistant to medical therapy.

- Therapeutic alternatives in Behçet's syndrome** 151  
 L. Cobellis, E. Pecori, F. Rigatti, M. Rotondi, C. Scaffa, E. De Lucia, E.M. Messalli - *Naples, ITALY*  
 An alternative treatment for Behçet's syndrome with the systemic use of interferon  $\alpha$ -2a.

- Hypertensive disorders in pregnancy: risk factors and epidemiologic analysis** 154  
 P. Anastasiadis, T. Tsikouras, G. Galazios, V. Liberis, X. Grapsas, N. Koutlaki, A.F. Anastasiadis - *Alexandroupolis, GREECE*  
 Most epidemiologic variables of hypertensive disorders in pregnancy present differences among Christian and Muslim populations in Thrace.

- Transvaginal sonographic assessment of the cervix and preterm labor** 159  
 P. Tsikouras, G. Galazios, A. Zalvanos, A. Bouzaki, A. Athanasiadis - *Thessaloniki, GREECE*  
 Sonographic assessment between the 9<sup>th</sup> and 12<sup>th</sup> week is the best cut-off period for predicting preterm labor.

	131
<b>Adenomyosis: prevalence, risk factors, symptoms and clinical findings</b>	163
O. Yeniel, T. Cirpan, M. Ulukus, A. Ozbal, G. Gundem, S. Ozsener, O. Zekioglu, H. Yilmaz - <i>Izmir, TURKEY</i> Adenomyosis is a common histopathological finding in hysterectomy samples.	
<b>Contribution of laparoscopy in young women with abdominal pain</b>	168
T. Tsikouras, V. Liberis, G. Galazios, S. Sarri, A.T. Teichmann - <i>Alexandroupolis, GREECE</i> Laparoscopic treatment of acute abdominal pain in young women seems to be safe and accurate.	
<b>Fetal abdominal subcutaneous tissue thickness measured by ultrasound at term is associated with birth weight and mode of delivery</b>	171
E. Assimakopoulos, M. Zafrakas, P. Garmiris, D.G. Goulis, A.P. Athanasiadis, K. Dragoumis, J. Bontis - <i>Polygyros, GREECE</i> Fetal abdominal subcutaneous tissue thickness measured in singleton pregnancies at term is associated with birth weight and operative vaginal and cesarean delivery.	
<b>EXPERIMENTAL RESEARCH</b>	
<b>Extended administration of the association of zidovudine plus ritonavir during rat pregnancy: maternal and fetal effects</b>	175
T.M. Pereira Fontes, R. Santos Simões, F.H. Martins Oliveira, M. de Jesus Simões, R.M. Oliveira-Filho, M.U. Nakamura, L. Kulay Jr. - <i>Sao Paulo, BRAZIL</i> Treatment of pregnant rats with zidovudine plus ritonavir reduces maternal body weight gain and increases the rate of fetal resorption.	
<b>CASE REPORTS</b>	
<b>Long-term personalized GnRH agonist therapy without estrogen supplementation for recurrent endometriotic catamenial pneumothorax - case report</b>	179
T. Tanaka - <i>Wakayama, JAPAN</i> Complete remission in a case of recurrent catamenial pneumothorax with long-term personalized GnRH agonist therapy is reported.	
<b>Three fetuses karyotyped as Turner syndrome with cystic hygroma developing hydrops: prognosis and outcome</b>	182
A. Basgul, N. Güdücü, Z.N. Kavak, H. Gökaslan, E. Uyar - <i>Istanbul, TURKEY</i> Three cases of fetuses diagnosed as Turner syndrome with cystic hygroma developing hydrops are presented with a discussion of the prenatal diagnostic and prognostic criteria and outcome.	
<b>Sympathomimetic amine therapy may improve refractory gastroparesis similar to its effect on chronic pelvic pain report case</b>	185
P. Boimel, J.H. Check, D. Katsoff - <i>Camden, NJ (USA)</i> A case is described where treatment of idiopathic edema with dextroamphetamine sulfate markedly improved refractory gastroparesis.	
<b>Thrombosis associated with a large uterine myoma: case report</b>	188
M. Bonito, L. Gulemi, R. Basili, G. Brunetti, D. Roselli - <i>Rome, ITALY</i> A patient with a large uterine myoma and deep unilateral thrombosis of the leg is reported.	
<b>Unscarred uterine rupture - case report and literature review</b>	190
R. Sakr, N. Berkane, E. Barranger, G. Dubernard, E. Daraï, S. Uzan - <i>Paris, FRANCE</i> A case of spontaneous uterine rupture in a multiparous woman with fetal macrosomia during labor is described together with a review of the literature.	
<b>Darbepoetin alfa for treatment of anaemia in a case of chronic renal failure during pregnancy - case report</b>	193
A. Ghosh, K.J. Ayers - <i>East Sussex, UK</i> A case where Darbepoetin alfa, a long-acting erythropoietin, was utilised with a good effect for treating severe anaemia as a result of chronic renal failure is reported.	
<b>Successful medical treatment of cesarean scar pregnancy: a case report</b>	195
S. Ayas, I. Aköz, A. Karateke, Ö. Bozoklu - <i>Istanbul, TURKEY</i> A case of a woman with cesarean scar pregnancy is presented. Diagnosis of the disease, conservative management and results are discussed.
