## General Information

CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY (ISSN 0390-6663) publishes original peer-reviewed work, preferably brief reports, in the fields of Gynecology, Obstetrics, Fetal Medicine, Gynecological Endocrinology, Fertility and Sterility, Menopause, Uro-gynecology, Ultrasound diagnosis in Obstetrics and Gynecology, Sexually transmitted diseases and related topics. It is indexed in INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica, BIOSIS.

### AIMS AND SCOPE

Since its inception, the *CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY Journal* has had the primary aim to assemble and diffuse scientific researches, particularly original researches, contributions, reviews, and proceedings of meetings in every field of the Discipline.

Today its large diffusion all over the world allows us to collect high quality papers and clinical reports on many interesting studies from every country, even from developing countries. This is the target goal of the Journal – aiming at the diffusion of knowledge and advances in female genital diseases.

This publication tries to cover all aspects of obstetrics and gynecology in an interdisciplinary approach among gynecologists, epidemiologists, pathologists, oncologists, radiologists, microbiologists, surgeons, urologists, neonatologists, genetists and so on.

The first target goal of the Journal is to publish **high quality papers** in the **shortest time possible**. Research papers, editorial reviews, case reports, technical notes, book reviews and letters to the Editor are published.

**ANNOUNCEMENTS** regarding meetings, postgraduate courses and symposia will be accepted 6 months before publication and will be published free of charge.

**BOOK SAMPLES** for review should be sent to the Editorial offices in Montréal or in Padova.

**COPYRIGHT:** the Journal has been registered with the Copyright Clearance Center, Inc. Reproductions are not allowed without the written consent of the Publisher. All photocopy fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA stating the ISSN number, the volume and the first and last page numbers of each article copied.

**ADVERTISING INFORMATION:** advertising orders and inquiries may be sent to: I.R.O.G. CANADA Inc., Publisher, 4900 Côte St. Luc, Apt. 212, Montréal (Quebec) Canada H3W 2H3, Tél. 514.4893242-4893640 - Fax 514.4854513 - E-mail: canlux@qc.aira.com - www.irog.net

**RESPONSIBILITY:** although every effort is made by the editorial staff and the printer to eliminate misleading or inaccurate information, the publisher accepts no responsibility for the consequences of faultful or incorrect information. The authors recognize that the editor and publisher have no responsibility and are indemnified against any liability or claim that may result from the publication of misleading or incorrect data.

### SUBSCRIPTION INFORMATION

The Journal is issued every three months (January, April, July and October); one volume per year. Subscriptions start from January and are automatically renewed if not cancelled by the end of September.

Subscriptions include four issues per year plus supplements and monographs and all official communications of Meetings, Courses, Symposia and all scientific activities in the fields of *Obstetrics and Gynecology* and related topics.

**Subscriptions are entered with prepayment only.** The annual subscription is \$280 US for Institutions and \$170 US for Individuals all over the world. For air mail add \$20. Single copies prepaid cost \$75.00 US.

Send subscription requests with cheque or credit card payment (Amex - Visa - Diners - Master Card) to I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, Montréal, Québec H3W 2H3, Canada. **Only US Funds are accepted.**

**Claims** for missing issues can be honored up to six months. **Changes of address:** allow six weeks for all changes to become effective. All communications should include both old and new addresses (with postal codes) - better if accompanied by a mailing label from a recent issue and should be sent to the printer La Garangola, Via E. Dalla Costa, 6 - 35129 Padova (Italy) - also by Tel. +39.049.8075557, Fax +39.049.7806580. Claims should be made within six months of publication date. Duplicate copies will not be sent to replace those undelivered through failure to notify of change of address.

**Single copies** and back issue and volume information is available from the printer La Garangola, Padua, Tel. +39.049.8075557, Fax +39.049.7806580. Certain back issues may only be available as photocopies of the originals.

All other business correspondence including orders for offprints and advertising space and **any communication and requests should be addressed to** I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, MONTRÉAL, QUÉBEC H3W 2H3 (Canada), Tel. (514) 4893242, fax (514) 4854513.

IN ALL LEGAL MATTERS THE COURT OF MONTREAL IS COMPETENT.

## Instructions to Authors

### SUBMISSION OF MANUSCRIPTS

Papers should be submitted to A. ONNIS Editor-in-Chief, 4900 Côte St. Luc, Apt. 212 MONTREAL, QUÉBEC H3W 2H3 (Canada) - Tel. +514-4893242 - Fax +514-4854513 - E-mail: canlux@qc.aira.com, or Galleria Storione 2/A - 35123 PADOVA (Italy) - Tel. +39-049-8756900 - Fax +39-049-8752018.

When a manuscript is submitted, an acknowledgement card is sent to the corresponding author within two or three weeks.

Submitted papers are reviewed by the Editor-in-Chief and his Peer Referees. Authors may be required to modify the manuscript according to the reviewers' suggestions.

Manuscripts accepted for publication will be copyedited by the editorial staff for typographical and grammatical mistakes and to guarantee clarity and conciseness.

**Publication time will be the shortest possible based on scientific and publishing needs. Manuscripts submitted for publication cannot be returned.**

Published papers will become property of the Journal and copyrighted under I.R.O.G. CANADA Inc.

After six months no grievances will be accepted regarding published articles.

All statements are the responsibility of the authors. Product dosages, indications and methods referred to in the papers reflect the author's experience. No responsibility is assumed by the Editor-in-Chief or the Publisher for any damage from use of any products, operation methods or instructions contained in the published materials.

Trade names, trademarks, etc. are protected by the law and regulations. The Editor-in-Chief and the Publisher cannot accept any legal responsibility for any errors or omissions that may be made in press, particularly for information about drug dosage and application thereof contained in the Journal. Consult the prescribing information before administering any drug.

### MANUSCRIPT REQUIREMENTS

The Journal follows the "Uniform requirements for manuscripts submitted to biomedical journals" published in the *New England Journal of Medicine* 1991, 324, 424-8 and in the *British Medical Journal* 1991, 302.

Three **manuscripts**, typed and double spaced should be submitted **with an electronic disk, formatted in Word for Macintosh or Windows, version 6.0**. Manuscripts without an electronic disk will not be accepted. **A cover letter signed by all authors must state that all authors who have participated in the work take responsibility for the manuscript which has never been published or submitted for publication elsewhere.** Without a cover letter the publication will not be possible. Name, address and phone/fax numbers of the **Corresponding Author**, responsible for revision and approval of the proofs, should be indicated. Full-length **articles** should not exceed 8 printed pages including tables and references.

After the **title page** (full title and names of authors, institutions, eventual acknowledgement for financial support, running title of no more than 60 characters or spaces), original works should be arranged in the conventional order: **Summary** (*purpose of investigation, methods, results, conclusion - about 150 words*), **Key words**, **Content** (a 20-word summary), **Introduction, Materials and Methods, Results, Discussion, Conclusion, Acknowledgement** (if any), **References, Tables, Legends**.

Authors should supply a complete address for reprint requests.

In the text only standard abbreviations can be used and must be avoided in the title. The full term for which an abbreviation stands should precede its first use in the summary and text unless it is a standard unit of measurement.

**Authors** must give their complete professional identifications and affiliations, including all academic titles and positions.

**Letters to the editor** should be brief (500 words or less) and offer objective, constructive and educational criticism of published material. The editor reserves the right to publish.

**Figures:** Two original copies (not negatives) of each figure are requested. Each figure should have a label on the back indicating its number, author's name and top of the figure. Do not write on the back of the figures and do not mount them on cardboard. **If sending colour pictures advise if they must be printed in colour or black and white (colour costs ten times more).**

**Legends** should be typed on a separate page with Arabic numerals corresponding to the illustrations.

**Tables** should be titled, typed in double space on separate pages and numbered in Arabic numerals in the order of their first citation in the text. Do not use internal rules. Only standard, universally understood abbreviations should be used.

**References should be numbered consecutively in the order in which they are first mentioned in the text.** Identify references in the text, tables, and legends by Arabic numerals in parentheses.

Use the style of the examples below, which are based with slight modifications on the format used by the U.S. National Library of Medicine in *Index Medicus*. The titles of journals should be abbreviated according to the style used in *Index Medicus*.

References must be verified by the Author(s) against the original documents.

Examples of correct forms of references are given below:

**Articles in Journals:** Authors' surname and initials (if more than six names, give six followed by "et al."), Title, Abbreviated Journal Title, Year of Publication, Volume, Issue and first page.

**Books:** Authors' surname and initials, title of the book and title of chapter, in: Title, Editor(s), Place, Publisher, Year, Page.

**Acknowledgments** will be limited to appropriate professionals who were contributors to the paper.

**PROOFS** revised by the editorial staff will be sent to the corresponding author and should be checked and returned within ten days. The corresponding author is responsible for detecting typesetting errors. After this deadline **the proofs will be considered approved**. Only essential corrections should be made; extensive changes will be charged to the authors.

### BUSINESS MATTERS

The Journal has no commercial advertisements.

**Authors will be expected to contribute to the printing expenses, tables, figures and postage.** For every published article a copy of the Journal will be provided free of charge. **Only payments in US dollars will be accepted.** No bank transfers.

**Reprints** should be requested with the form enclosed with the acceptance letter. No free reprints will be supplied.

## EDITORIAL ARTICLES

- The problems with different management options of women with minor squamous intraepithelial lesions in Pap tests** 249

M. Varras - *Athens, GREECE*

The pros and cons of different management options of women with minor squamous intraepithelial lesions in Pap tests are discussed.

- Current approach to fracture prevention in postmenopausal osteoporosis** 251

B. Kaplan, M. Hirsch - *Tel Aviv, ISRAEL*

The prevention and management of osteoporosis during menopause using calcium supplements and vitamin D, antiresorptive or anabolic agents to improve bone strength are presented.

## ORIGINAL ARTICLES

- Effect of antagonists vs agonists on in vitro fertilization outcome** 257

M.L. Check, J.H. Check, J.K. Choe, E. Davies, D. Kiefer - *Camden, NJ (USA)*

Stimulation protocols using the GnRH antagonist ganirelix do not diminish IVF outcome when compared to regimens using leuprolide acetate (agonist).

- Evaluation of Langerhans' cells in human papillomavirus-associated squamous intraepithelial lesions of the uterine cervix** 260

N.S. Uchimura, J.C.L. Ribalta, J. Focchi, M.J. Simões, T.T. Uchimura, E.S. Silva - *São Paulo, BRAZIL*

An immunohistochemical study of Langerhans' cell density in normal uterine cervixes and those with histopathological lesions due to human papillomavirus is reported.

- Effect of corporal fibroids on outcome following embryo transfer in donor-oocyte recipients** 263

W. Wang, J.H. Check - *Camden, NJ (USA)*

There was no difference in pregnancy rate in women with or without fibroids, however there was a significantly higher miscarriage rate in women with fibroids.

- Shared donor oocyte system to determine if top embryos can be derived from oocyte factors or more likely from an oocyte/sperm interaction** 265

D. Horwath, J.H. Check, J.K. Choe, D. Summers-Chase, J.W. Krotec - *Camden, NJ (USA)*

An oocyte factor may be responsible for the production of superior embryos as determined by oocyte sharing.

- Effect of the WHI study on the attitude of Israeli gynecologists to hormonal therapy during menopause** 267

B. Kaplan, Y. Yogev, R. Orvieto, M. Hirsch, M. Fisher, D. Rabinerson - *Tel Aviv, ISRAEL*

Both physicians and patients are clearly influenced by the Women's Health Initiative (WHI). Today in Israel hormonal replacement therapy is reserved for treatment of menopausal symptoms and avoidance of future complications of heart disease and osteoporosis.

- Cytokines and endometriosis** 269

J. Markowska, M. Kowalska, M. Gogacz, J. Lubin, M. Markowski, J. Kamińska - *Poznan, POLAND*

Concentrations of cytokines VEGF, bFGF and IL-6 are higher in women with endometriosis and these may play an important role in the pathogenesis of this disease.

- Pregnancy in patients with heart disease** 271

P. Chalupczak, W. Kolaszińska-Kloch, R. Jach, A. Basta - *Kracow, POLAND*

A significant increase in percentage of congenital heart disease was correlated with a high incidence of cesarean section. Pregnancy duration depends on cardiac sufficiency.

- Does electrical stimulation of the pelvic floor make any change in urodynamic parameters? When to expect a cure and improvement in women with stress urinary incontinence?** 274

R.A. Castro, M.J.B.C. Girão, R.M. Arruda, C.C. Takano, M.G.F. Sartori, S.R. Martins, E.C. Baracat, G. Rodrigues de Lima - *São Paulo, BRAZIL*

Electric stimulation of the pelvic floor in patients with stress urinary incontinence appears to be useful. Urodynamic tests confirmed this efficacy.

- The unconsummated marriage: Causes and management** 279

M.H. Addar - *Riyadh, SAUDI ARABIA*

The unconsummated marriage is largely treatable. Serious events can occur if interventions are delayed.

	247
<b>The importance of Doppler ultrasound in delivery planning</b>	282
M. Gojnic, M. Pervulov, S. Petkovic, M. Papic, T. Mostic - <i>Belgrade, SERBIA</i> The contributions and relevance of Doppler flow, especially in planning delivery, were studied. Considering the increasing morbidity and mortality and general drop in birthrate, it is necessary to approach every pregnancy as unique.	
<b>Social aspects of the new assisted reproduction technologies: Attitudes of Israeli gynecologists</b>	285
B. Kaplan, R. Orvietob, Y. Yogevev, Y. Simon - <i>Petah-Tikva (Israel)</i> Attitudes of gynecologists on impact of reproductive technologies, their definition of family, and potential partners in the decision-making process are presented.	
<b>Early diagnosis of trophoblast produced capillary hypertension (pregnancy-induced hypertension)</b>	287
M. Gojnic, M. Pervulov, S. Petkovic, T. Mostic, K. Adamsons, M. Papic, K. Jeremic - <i>Belgrade, SERBIA</i> A clinical study demonstrated that blood pressure in the capillaries increased in preeclampsia.	
<b>Cesarean section rates and indications in Greece: Data from a 24-year period in a teaching hospital</b>	289
P. Tampakoudis, E. Assimakopoulos, G. Grimbizis, M. Zafrakas, G. Tampakoudis, S. Mantalenakis, J. Bontis - <i>Thessaloniki, GREECE</i> Cesarean section rates have progressively increased between 1977 and 2000, with primary cesarean section contributing mainly to this increase.	
<b>Fetal tachycardia: Is digitalis still the first-line therapy?</b>	293
A.P. Athanassiadis, C. Dadamogias, D. Netskos, G. Avramidis, M. Zafrakas, T. Mikos, A. Apostolidis, E. Asimakopoulos, J. Bontis - <i>Thessaloniki, GREECE</i> A series of four cases of fetal tachyarrhythmias successfully treated with maternal administration of antiarrhythmic medications are presented.	
<b>CASE REPORTS</b>	
<b>Sebaceous glands in the uterine cervix: Two new cases</b>	296
K. Rothenberger-Janzen, P. Kurz-Pfeifle, S. Houissa-Vuong, J. Janzen - <i>Tübingen, GERMANY</i> The presence of sebaceous glands in the uterine cervix is an extremely rare histological observation. The etiology of this entity is discussed.	
<b>Pregnancy despite imminent ovarian failure and extremely high endogenous gonadotropins and therapeutic strategies: Case report and review</b>	299
M.L. Check, J.H. Check, H. Kaplan - <i>Camden, NJ (USA)</i> A case is described where ovulation induction and pregnancy occurred in a woman with premature ovarian failure by suppressing elevated gonadotropins with ethinyl estradiol.	
<b>Malignant neoplasms arising in endometriosis: Clinicopathological study of 14 cases</b>	302
A. Kondi-Pafiti, H. Spanidou-Carvouni, K. Papadias, I. Hatzistamou-Kiari, K. Kontogianni, A. Liapis, V. Smyrniotis - <i>Athens, GREECE</i> Cases of malignant neoplasms which changed in endometriosis were diagnosed in women aged 37-70 years.	
<b>Multiple dermoid cysts within the same ovary: Our experience of a rare case with review of the literature</b>	305
N. Bournas, M. Varras, D. Kassanos, Ch. Chrelias, O. Tzaida, E. Salamalekis - <i>Athens, GREECE</i> Report of a rare case of multiple dermoid cysts within the same ovary and description of the ultrasonographic findings; the differential diagnosis is also discussed.	
<b>A rare case of pregnancy and delivery of a healthy neonate by a woman with microprolactinoma and review of the literature</b>	309
A. Kwaśniewska, M. Skoczyński, M. Semczuk - <i>Lublin, POLAND</i> A case of a term pregnancy and delivery in a patient with microprolactinoma is described. Treatment with bromocriptine allowed a healthy child to be delivered by cesarean section.	
<b>Endometriosis and ovarian dysgenesis: A case report</b>	311
G. Kourounis, A. Fotopoulos, G. Decavalas, G. Michail - <i>Kalamata, GREECE</i> A mosaic Turner's patient, aged 33 with primary amenorrhea, underwent laparoscopy. White opacification type endometriotic lesions were revealed near the broad ligament and under the ovarian fossa.	
<b>Chronic uterine inversion: Preservation of the uterus - Case report</b>	313
R. Has, L. Ibrahimoglu, T. Özgün, A. Türker - <i>Istanbul, TURKEY</i> A successfully treated chronic uterine inversion case is presented.
