General Information

CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY (ISSN 0390-6663) publishes original peer-reviewed work, preferably brief reports, in the fields of Gynecology, Obstetrics, Fetal Medicine, Gynecological Endocrinology, Fertility and Sterility, Menopause, Uro-gynecology, Ultrasound diagnosis in Obstetrics and Gynecology, Sexually transmitted diseases and related topics. It is indexed in INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica.

AIMS AND SCOPE

Since its inception, the *CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY Journal* has had the primary aim to assemble and diffuse scientific researches, particularly original researches, contributions, reviews, and proceedings of meetings in every field of the Discipline.

Today its large diffusion all over the world allows us to collect high quality papers and clinical reports on many interesting studies from every country, even from developing countries. This is the target goal of the Journal – aiming at the diffusion of knowledge and advances in female genital diseases.

This publication tries to cover all aspects of obstetrics and gynecology in an interdisciplinary approach among gynecologists, epidemiologists, pathologists, oncologists, radiologists, microbiologists, surgeons, urologists, neonatologists, genetists and so on.

The first target goal of the Journal is to publish **high quality papers** in the **shortest time possible**. Research papers, editorial reviews, case reports, technical notes, book reviews and letters to the Editor are published.

ANNOUNCEMENTS regarding meetings, postgraduate courses and symposia will be accepted 6 months before publication and will be published free of charge.

BOOK SAMPLES for review should be sent to the Editorial offices in Montréal or in Padova.

COPYRIGHT: the Journal has been registered with the Copyright Clearance Center, Inc. Reproductions are not allowed without the written consent of the Publisher. All photocopy fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA stating the ISSN number, the volume and the first and last page numbers of each article copied.

ADVERTISING INFORMATION: advertising orders and inquiries may be sent to: I.R.O.G. CANADA Inc., Publisher, 4900 Côte St. Luc, Apt. 212, Montréal (Quebec) Canada H3W 2H3, Tél. 514.4893242-4893640 - Fax 514.4854513 - E-mail: canlux@mgroun-online.com - www.irog.net

RESPONSIBILITY: although every effort is made by the editorial staff and the printer to eliminate misleading or inaccurate information, the publisher accepts no responsibility for the consequences of faultful or incorrect information. The authors recognize that the editor and publisher have no responsibility and are indemnified against any liability or claim that may result from the publication of misleading or incorrect data.

SUBSCRIPTION INFORMATION

The Journal is issued every three months (January, April, July and October); one volume per year. Subscriptions start from January and are automatically renewed if not cancelled by the end of September.

Subscriptions include four issues per year plus supplements and monographs and all official communications of Meetings, Courses, Symposia and all scientific activities in the fields of *Obstetrics and Gynecology* and related topics.

Subscriptions are entered with prepayment only. The annual subscription is \$280 US for Institutions and \$170 US for Individuals all over the world. For air mail add \$20. Single copies prepaid cost \$75.00 US.

Send subscription requests with cheque or credit card payment (Amex - Visa - Diners - Master Card) to I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, Montréal, Québec H3W 2H3, Canada. **Only US Funds are accepted.**

Claims for missing issues can be honored up to six months. **Changes of address:** allow six weeks for all changes to become effective. All communications should include both old and new addresses (with postal codes) - better if accompanied by a mailing label from a recent issue and should be sent to the printer La Garangola, Via E. Dalla Costa, 6 - 35129 Padova (Italy) - also by Tel. +39.049.8075557, Fax +39.049.7806580. Claims should be made within six months of publication date. Duplicate copies will not be sent to replace those undelivered through failure to notify of change of address.

Single copies and back issue and volume information is available from the printer La Garangola, Padua, Tel. +39.049.8075557, Fax +39.049.7806580. Certain back issues may only be available as photocopies of the originals.

All other business correspondence including orders for offprints and advertising space and **any communication and requests should be addressed to** I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, MONTRÉAL, QUÉBEC H3W 2H3 (Canada), Tel. (514) 4893242, fax (514) 4854513.

IN ALL LEGAL MATTERS THE COURT OF MONTREAL IS COMPETENT.

Instructions to Authors

SUBMISSION OF MANUSCRIPTS

Papers should be submitted to A. ONNIS Editor-in-Chief, 4900 Côte St. Luc, Apt. 212 MONTREAL, QUÉBEC H3W 2H3 (Canada) - Tel. +514-4893242 - Fax +514-4854513 - Galleria Storione 2/A - 35123 PADOVA (Italy) - Tel. +39-049-8756900 - Fax +39-049-8752018. The new section "Assisted conception and reproductive biology" will be led by J.H. Check, Editor-in-Chief. Address: Reproductive and Medical Endocrine Associates P.C. (Attention: Laurie Aurand), 7447 Old York Road, Melrose Park, PA 19027. Telephone Number: 215 635-4400, Fax Number: 215 635-2304, email: Laurie@ccivf.com.

When a manuscript is submitted, an acknowledgement card is sent to the corresponding author within two or three weeks.

Submitted papers are reviewed by the Editor-in-Chief and his Peer Referees. Authors may be required to modify the manuscript according to the reviewers' suggestions.

Manuscripts accepted for publication will be copyedited by the editorial staff for typographical and grammatical mistakes and to guarantee clarity and conciseness.

Publication time will be the shortest possible based on scientific and publishing needs. **Manuscripts submitted for publication cannot be returned.**

Published papers will become property of the Journal and copyrighted under I.R.O.G. CANADA Inc.

After six months no grievances will be accepted regarding published articles.

All statements are the responsibility of the authors. Product dosages, indications and methods referred to in the papers reflect the author's experience. No responsibility is assumed by the Editor-in-Chief or the Publisher for any damage from use of any products, operation methods or instructions contained in the published materials.

Trade names, trademarks, etc. are protected by the law and regulations. The Editor-in-Chief and the Publisher cannot accept any legal responsibility for any errors or omissions that may be made in press, particularly for information about drug dosage and application thereof contained in the Journal. Consult the prescribing information before administering any drug.

MANUSCRIPT REQUIREMENTS

The Journal follows the "Uniform requirements for manuscripts submitted to biomedical journals" published in the *New England Journal of Medicine* 1991, 324, 424-8 and in the *British Medical Journal* 1991, 302.

The manuscripts must be sent by mail and never by e-mail.

Three *manuscripts* typed and double spaced should be submitted by mail (not by email) **with an electronic disk, formatted in Word for Macintosh or Windows, version 6.0.** Manuscripts without an electronic disk will not be accepted. **A cover letter signed by all authors must state that all authors who have participated in the work take responsibility for the manuscript which has never been published or submitted for publication elsewhere.** Without a cover letter the publication will not be possible. Name, address and phone/fax numbers of the *Corresponding Author*, responsible for revision and approval of the proofs, should be indicated. Full-length articles should not exceed 8 printed pages including tables and references.

After the *title page* (full title and names of authors, institutions, eventual acknowledgement for financial support, running title of no more than 60 characters or spaces), original works should be arranged in the conventional order: *Summary* (purpose of investigation, methods, results, conclusion - about 150 words), *Key words*, *Content* (a 20-word summary), *Introduction*, *Materials and Methods*, *Results*, *Discussion*, *Conclusion*, *Acknowledgement* (if any), *References*, *Tables*, *Legends*.

Authors should supply a complete address for reprint requests.

In the text only standard abbreviations can be used and must be avoided in the title. The full term for which an abbreviation stands should precede its first use in the summary and text unless it is a standard unit of measurement.

Authors must give their complete professional identifications and affiliations, including all academic titles and positions.

Letters to the editor should be brief (500 words or less) and offer objective, constructive and educational criticism of published material. The editor reserves the right to publish.

Figures: Two original copies (not negatives) of each figure are requested. Each figure should have a label on the back indicating its number, author's name and top of the figure. Do not write on the back of the figures and do not mount them on cardboard. **If sending colour pictures advise if they must be printed in colour or black and white (colour costs ten times more).**

Legends should be typed on a separate page with Arabic numerals corresponding to the illustrations.

Tables should be titled, typed in double space on separate pages and numbered in Arabic numerals in the order of their first citation in the text. Do not use internal rules. Only standard, universally understood abbreviations should be used.

References should be numbered consecutively in the order in which they are first mentioned in the text. Identify references in the text, tables, and legends by Arabic numerals in parentheses.

Use the style of the examples below, which are based with slight modifications on the format used by the U.S. National Library of Medicine in *Index Medicus*. The titles of journals should be abbreviated according to the style used in *Index Medicus*.

References must be verified by the Author(s) against the original documents.

Examples of correct forms of references are given below:

Articles in Journals: Authors' surname and initials (if more than six names, give six followed by "et al."), Title, Abbreviated Journal Title, Year of Publication, Volume, Issue and first page.

Books: Authors' surname and initials, title of the book and title of chapter, in: Title, Editor(s), Place, Publisher, Year, Page.

Acknowledgments will be limited to appropriate professionals who were contributors to the paper.

PROOFS revised by the editorial staff will be sent to the corresponding author and should be checked and returned within ten days. The corresponding author is responsible for detecting typesetting errors. After this deadline **the proofs will be considered approved.** Only essential corrections should be made; extensive changes will be charged to the authors.

BUSINESS MATTERS

The Journal has no commercial advertisements.

Authors will be expected to contribute to the printing expenses, tables, figures and postage. For every published article a copy of the Journal will be provided free of charge. **Only payments in US dollars will be accepted.** No bank transfers.

Reprints should be requested with the form enclosed with the acceptance letter. No free reprints will be supplied.

ORIGINAL ARTICLES**Reproductive Biology Section****GnRH agonist versus GnRH antagonist in ovarian stimulation: Is the emperor naked?** 197R. Orvieto, J. Rabinson, S. Meltzer, R. Homburg, E. Anteby, E. Zohav - *Beer Sheva, ISRAEL*

The influence of type of GnRH - analog used during controlled ovarian hyperstimulation on the outcome of in vitro fertilization cycles was evaluated.

Evaluation of the effect of endometriosis on oocyte quality and endometrial environment by comparison of donor and recipient outcomes following embryo transfer in a shared oocyte program 201B. Katsoff, J.H. Check, E. Davies, C. Wilson - *Camden, NJ (USA)*

Endometriosis does not seem to negatively affect the quality of oocytes or the endometrial environment.

Fertilization by intracytoplasmic sperm injection (ICSI) does not impair subsequent pregnancy outcome following frozen embryo transfer (ET) as determined by a large retrospective analysis 203B. Katsoff, C. Wilson, J.H. Check, W. Yuan, D. Summers-Chase - *Camden, NJ (USA)*

Fertilization by ICSI does not adversely affect pregnancy rates following frozen embryo transfer compared to those fertilized by conventional insemination.

General Section**Double-blind, placebo-controlled study of FertilityBlend®: a nutritional supplement for improving fertility in women** 205L.M. Westphal, M.L. Polan, A. Sontag Trant - *Stanford, CA (USA)*

FertilityBlend®, a proprietary nutritional supplement, is shown to significantly increase pregnancy rate, as well as normalize progesterone and menstrual cycle irregularities.

A morphological and biochemical appraisal of the liver and renal effects of lamivudine on rat pregnancy 209R.D.V. Pontes, A.M. Amed, R.S. Simões, R.M. Oliveira-Filho, M.J. Simões, L. Kulay Jr. - *São Paulo, SP (Brazil)*

There appears to be a link between blood biochemical alterations and cellular changes elicited by lamivudine on maternal livers and kidneys of rats when administered during the entire period of pregnancy.

New emerging blood-borne hepatitis viral pathogens and the feasibility of passing through the placenta: an appraisal 213V. Wiwanitkit - *Bangkok, THAILAND*

The feasibility of some new emerging blood-borne hepatitis viral pathogens passing through the placenta was investigated.

Effects of pregnancy and childbirth on the incidence of urinary disorders in multiple sclerosis 215A. Durufle, B. Nicolas, S. Petrilli, S. Robineau, F. Guillé, G. Edan, P. Gallien - *Rennes-Cedex, FRANCE*

An inception cohort of 368 consecutive women suffering from multiple sclerosis (MS), according to the Poser criteria, was included in the study between June 1999 and June 2000 obtaining for each patient a full urological and obstetrical record.

Screening of foetal distress by assessment of umbilical cord lactate 219F. Borruto, C. Comparetto, E. Wegher, A. Treisser - *Firenze, ITALY*

Assessment of umbilical cord lactate levels at delivery may represent a good screening method for the prevention of cerebral paralysis during pregnancy in cases at risk for intrapartum foetal asphyxia.

Postoperative analgesia after cesarean section by continued administration of levobupivacaine with the On-Q Painbuster system over the fascia vs ketorolac + morphine IV 223E. Magnani, R. Corosu, P. Mancino, M.L. Borgia - *Rome, ITALY*

The analgesic effectiveness of levobupivacaine wound instillation with the On-Q Painbuster system in the treatment of postoperative pain was evaluated.

Combined administration of misoprostol in the first and second trimester missed abortion cases 226T. Kutlu, S. Tuğrul, T. Aran, H. Üslü, S. Eren, Ö. Oral - *Istanbul, TURKEY*

The effectiveness and adverse effects of combined (vaginal + oral) administration of misoprostol in missed abortion cases was investigated.

- Magnetoencephalography and magnetocardiography in neonates. Our experience in Greece** 229
 A. Kotini, A.N. Anastasiadis, N. Koutlaki, D. Tamiolakis, P. Anninos, P. Anastasiadis - *Alexandroupolis, GREECE*
 Magnetoencephalography and magnetocardiography provide useful information concerning brain and heart function in neonates.
- Effect of tibolone on cytochrome c oxidase I, beta-2-microglobulin and vascular endothelial growth factor gene expression in the lower urinary tract of castrated rats** 233
 M.G. Hamerski, M.A.T. Bortolini, I.D.C. Guerreiro Da Silva, R.A. Castro, M.G.F. Sartori, G. Rodrigues De Lima, M.J.B.C. Girão - *São Paulo, BRAZIL*
 This study analyzed the expression of COX I, $\beta 2$ M and VEGF genes of the lower urinary tract under the action of tibolone in view of the few studies in the literature related to its action on the bladder and urethra.
- Maternal zinc and cord blood zinc, insulin-like growth factor-1, and insulin-like growth factor binding protein-3 levels in small-for-gestational-age newborns** 238
 I. Akman, P. Arioglu, O.A. Koroglu, M. Sakalli, E. Ozek, A. Topuzoglu, S. Eren, A. Bereket - *Istanbul, TURKEY*
 The relationship between maternal serum zinc (Zn) levels and birth weight of the offspring and their correlation with cord blood Zn, insulin-like growth factor (IGF-1) and insulin-like growth factor binding protein-3 (IGFBP-3) levels was studied.
- CASE REPORTS**
- Non-immune foetal hydrops: a case report** 241
 R. D'Amelio, V. Rauccio, J. Melluso, S. Grande, E. Feraudo, M. Britelli - *Rome, ITALY*
 The diagnosis and management of a case of non-immune foetal hydrops in which the foetus survival is reported.
- Transient bone marrow oedema of the femoral head in pregnancy - case report** 244
 G. Palit, M. Kerremans, J. Gorissen, Y. Jacquemyn - *Edegem, BELGIUM*
 A case of transient oedema of the femoral head without signs of osteoporosis and with spontaneous resolution after delivery is reported.
- MRI investigation for neurofibromatosis type 1 lesions during pregnancy - a case report** 246
 K. Stefanidis, E. Solomou, E. Lagona, A. Pilalis, N. Makris, D. Loutradis, A. Antsaklis - *Athens, GREECE*
 A case of delayed diagnosis of uterus didelphys-unicolis with cervical atresia in a 43-year-old unmarried woman with primary amenorrhea is reported.
- Inguinal dermoid cyst of the round ligament - a case report and review of the literature** 249
 M. Genetzakis, E.E. Lagoudianakis, A. Papadima, D.K. Tsekouras, H. Markogiannakis, K. Filis, A. Manouras - *Athens, GREECE*
 A case of an inguinal dermoid cyst of the round ligament is reported with discussion of the differential diagnosis and review of the literature.
