General Information

CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY (ISSN 0390-6663) publishes original peer-reviewed work, preferably brief reports, in the fields of Gynecology, Obstetrics, Fetal Medicine, Gynecological Endocrinology, Fertility and Sterility, Menopause, Uro-gynecology, Ultrasound diagnosis in Obstetrics and Gynecology, Sexually transmitted diseases and related topics. It is indexed in INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica.

AIMS AND SCOPE

Since its inception, the *CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY Journal* has had the primary aim to assemble and diffuse scientific researches, particularly original researches, contributions, reviews, and proceedings of meetings in every field of the Discipline.

Today its large diffusion all over the world allows us to collect high quality papers and clinical reports on many interesting studies from every country, even from developing countries. This is the target goal of the Journal – aiming at the diffusion of knowledge and advances in female genital diseases.

This publication tries to cover all aspects of obstetrics and gynecology in an interdisciplinary approach among gynecologists, epidemiologists, pathologists, oncologists, radiologists, microbiologists, surgeons, urologists, neonatologists, genetists and so on.

The first target goal of the Journal is to publish **high quality papers** in the **shortest time possible**. Research papers, editorial reviews, case reports, technical notes, book reviews and letters to the Editor are published.

ANNOUNCEMENTS regarding meetings, postgraduate courses and symposia will be accepted 6 months before publication and will be published free of charge.

BOOK SAMPLES for review should be sent to the Editorial offices in Montréal or in Padova.

COPYRIGHT: the Journal has been registered with the Copyright Clearance Center, Inc. Reproductions are not allowed without the written consent of the Publisher. All photocopy fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA stating the ISSN number, the volume and the first and last page numbers of each article copied.

ADVERTISING INFORMATION: advertising orders and inquiries may be sent to: I.R.O.G. CANADA Inc., Publisher, 4900 Côte St. Luc, Apt. 212, Montréal (Quebec) Canada H3W 2H5, Tél. 514.4893242-4893640 - Fax 514.4854513 - E-mail: canlux@mgroup-online.com - www.irog.net

RESPONSIBILITY: although every effort is made by the editorial staff and the printer to eliminate misleading or inaccurate information, the publisher accepts no responsibility for the consequences of faulty or incorrect information. The authors recognize that the editor and publisher have no responsibility and are indemnified against any liability or claim that may result from the publication of misleading or incorrect data.

SUBSCRIPTION INFORMATION

The Journal is issued every three months (January, April, July and October); one volume per year. Subscriptions start from January and are automatically renewed if not cancelled by the end of September.

Subscriptions include four issues per year plus supplements and monographs and all official communications of Meetings, Courses, Symposia and all scientific activities in the fields of *Obstetrics and Gynecology* and related topics.

Subscriptions are entered with prepayment only. The annual subscription is \$280 US for Institutions and \$170 US for Individuals all over the world. For air mail add \$20. Single copies prepaid cost \$75.00 US.

Send subscription requests with cheque or credit card payment (Amex - Visa - Diners - Master Card) to I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, Montréal, Québec H3W 2H3, Canada. **Only US Funds are accepted.**

Claims for missing issues can be honored up to six months. **Changes of address:** allow six weeks for all changes to become effective. All communications should include both old and new addresses (with postal codes) - better if accompanied by a mailing label from a recent issue and should be sent to the printer La Garangola, Via E. Dalla Costa, 6 - 35129 Padova (Italy) - also by Tel. +39.049.8075557, Fax +39.049.7806580. Claims should be made within six months of publication date. Duplicate copies will not be sent to replace those undelivered through failure to notify of change of address.

Single copies and back issue and volume information is available from the printer La Garangola, Padua, Tel. +39.049.8075557, Fax +39.049.7806580. Certain back issues may only be available as photocopies of the originals.

All other business correspondence including orders for offprints and advertising space and **any communication and requests should be addressed to** I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, MONTRÉAL, QUÉBEC H3W 2H3 (Canada), Tel. (514) 4893242, fax (514) 4854513.

IN ALL LEGAL MATTERS THE COURT OF MONTREAL IS COMPETENT.

Instructions to Authors

SUBMISSION OF MANUSCRIPTS

Papers should be submitted to A. ONNIS Editor-in-Chief, 4900 Côte St. Luc, Apt. 212 MONTREAL, QUÉBEC H3W 2H3 (Canada) - Tel. +514-4893242 - Fax +514-4854513 - Galleria Storione 2/A - 35123 PADOVA (Italy) - Tel. +39-049-8756900 - Fax +39-049-8752018. The new section "Assisted conception and reproductive biology" will be led by J.H. Check, Editor-in-Chief. Address: Reproductive and Medical Endocrine Associates P.C. (Attention: Laurie Aurand), 7447 Old York Road, Melrose Park, PA 19027. Telephone Number: 215 635-4400, Fax Number: 215 635-2304, email: Laurie@ccivf.com.

When a manuscript is submitted, an acknowledgement card is sent to the corresponding author within two or three weeks.

Submitted papers are reviewed by the Editor-in-Chief and his Peer Referees. Authors may be required to modify the manuscript according to the reviewers' suggestions.

Manuscripts accepted for publication will be copyedited by the editorial staff for typographical and grammatical mistakes and to guarantee clarity and conciseness.

Publication time will be the shortest possible based on scientific and publishing needs. **Manuscripts submitted for publication cannot be returned.**

Published papers will become property of the Journal and copyrighted under I.R.O.G. CANADA Inc.

After six months no grievances will be accepted regarding published articles.

All statements are the responsibility of the authors. Product dosages, indications and methods referred to in the papers reflect the author's experience. No responsibility is assumed by the Editor-in-Chief or the Publisher for any damage from use of any products, operation methods or instructions contained in the published materials.

Trade names, trademarks, etc. are protected by the law and regulations. The Editor-in-Chief and the Publisher cannot accept any legal responsibility for any errors or omissions that may be made in press, particularly for information about drug dosage and application thereof contained in the Journal. Consult the prescribing information before administering any drug.

MANUSCRIPT REQUIREMENTS

The Journal follows the "Uniform requirements for manuscripts submitted to biomedical journals" published in the *New England Journal of Medicine* 1991, 324, 424-8 and in the *British Medical Journal* 1991, 302.

The manuscripts must be sent by mail and never by e-mail.

Three *manuscripts* typed and double spaced should be submitted by mail (not by email) **with an electronic disk, formatted in Word for Macintosh or Windows, version 6.0.** Manuscripts without an electronic disk will not be accepted. **A cover letter signed by all authors must state that all authors who have participated in the work take responsibility for the manuscript which has never been published or submitted for publication elsewhere.** Without a cover letter the publication will not be possible. Name, address and phone/fax numbers of the *Corresponding Author*, responsible for revision and approval of the proofs, should be indicated. Full-length articles should not exceed 8 printed pages including tables and references.

After the *title page* (full title and names of authors, institutions, eventual acknowledgement for financial support, running title of no more than 60 characters or spaces), original works should be arranged in the conventional order: *Summary* (purpose of investigation, methods, results, conclusion - about 150 words), *Key words*, *Content* (a 20-word summary), *Introduction*, *Materials and Methods*, *Results*, *Discussion*, *Conclusion*, *Acknowledgement* (if any), *References*, *Tables*, *Legends*.

Authors should supply a complete address for reprint requests.

In the text only standard abbreviations can be used and must be avoided in the title. The full term for which an abbreviation stands should precede its first use in the summary and text unless it is a standard unit of measurement.

Authors must give their complete professional identifications and affiliations, including all academic titles and positions.

Letters to the editor should be brief (500 words or less) and offer objective, constructive and educational criticism of published material. The editor reserves the right to publish.

Figures: Two original copies (not negatives) of each figure are requested. Each figure should have a label on the back indicating its number, author's name and top of the figure. Do not write on the back of the figures and do not mount them on cardboard. **If sending colour pictures advise if they must be printed in colour or black and white (colour costs ten times more).**

Legends should be typed on a separate page with Arabic numerals corresponding to the illustrations.

Tables should be titled, typed in double space on separate pages and numbered in Arabic numerals in the order of their first citation in the text. Do not use internal rules. Only standard, universally understood abbreviations should be used.

References should be numbered consecutively in the order in which they are first mentioned in the text. Identify references in the text, tables, and legends by Arabic numerals in parentheses.

Use the style of the examples below, which are based with slight modifications on the format used by the U.S. National Library of Medicine in *Index Medicus*. The titles of journals should be abbreviated according to the style used in *Index Medicus*.

References must be verified by the Author(s) against the original documents.

Examples of correct forms of references are given below:

Articles in Journals: Authors' surname and initials (if more than six names, give six followed by "et al."), Title, Abbreviated Journal Title, Year of Publication, Volume, Issue and first page.

Books: Authors' surname and initials, title of the book and title of chapter, in: Title, Editor(s), Place, Publisher, Year, Page.

Acknowledgments will be limited to appropriate professionals who were contributors to the paper.

PROOFS revised by the editorial staff will be sent to the corresponding author and should be checked and returned within ten days. The corresponding author is responsible for detecting typesetting errors. After this deadline **the proofs will be considered approved.** Only essential corrections should be made; extensive changes will be charged to the authors.

BUSINESS MATTERS

The Journal has no commercial advertisements.

Authors will be expected to contribute to the printing expenses, tables, figures and postage. For every published article a copy of the Journal will be provided free of charge. **Only payments in US dollars will be accepted.** No bank transfers.

Reprints should be requested with the form enclosed with the acceptance letter. No free reprints will be supplied.

EDITORIAL ARTICLES

- Ovulation disorders: Part I - Anovulation associated with estrogen deficiency** 5
 J.H. Check - *Camden, NJ (USA)*
 Anovulation with estrogen deficiency can be related to insufficient pituitary secretion and release of FSH or diminished egg reserve. The former is easier to treat than the latter.
- Low birth weight and early life origins of adult disease: insulin resistance and type 2 diabetes** 9
 P.V. Grella - *Padua, ITALY*
 Low birth weight may cause insulin resistance and type 2 diabetes in adulthood.

ORIGINAL ARTICLES

- Progesterone receptor expression by human leukocyte cell lines: molecular mechanisms of cytokine suppression** 14
 M.D. Srivastava, D.J. Anderson - *Boston, MA (USA)*
 Several progesterone receptor isoforms are expressed by some human leukemia cell lines. Their signaling decreases NFκB activity and cytokine production.
- Luteal phase support for patients undergoing frozen-thawed embryo transfer cycles - the required progesterone dose** 25
 R. Orvieto, S. Meltcer, M. Volodarski, S. Scharf, J. Rabinson, E. Zohav, E.Y. Anteby, R. Homburg - *Beer Sheva, ISRAEL*
 The required progesterone dose to support the luteal phase in patients undergoing frozen-thawed embryo transfer was investigated.
- The influence of weather state on the incidence of preeclampsia and placental abruption in semi-arid areas** 27
 N.S. Yackerson, B. Piura, M. Friger - *Beer Sheva, ISRAEL*
 In semi-arid areas the unstable weather conditions increase the incidence of preeclampsia and placental abruption.
- High estradiol levels and depth of anaesthesia** 31
 L. Yavuz, F. Eroglu, B.G. Ceylan, H.M. Ozsoy, D. Ozbasar - *Isparta, TURKEY*
 Estradiol is a steroid structured hormone that has a periodic rhythm in menstrual cycles. Interference of high estradiol levels and depth of anaesthesia were evaluated.
- Results after hysteroscopic management of premenopausal patients with dysfunctional uterine bleeding or intrauterine lesions** 35
 I. Stamatellos, G. Koutsourgeras, D. Karamanidis, P. Stamatopoulos, I. Timpanidis, J. Bontis - *Alexandroupolis, GREECE*
 Operative hysteroscopy is an effective and safe method for the management of benign intrauterine pathology or dysfunctional uterine bleeding.
- Impact of tubal sterilization on women's health** 39
 A. Basgöl, A. Uzuner, Z.N. Kavak, N. Bozkurt, H. Onaran, M.S. Ertürk - *Istanbul, TURKEY*
 Women who had tubal sterilization performed were mostly satisfied with the method and willing to recommend it to other women.
- Biomagnetism in perinatal medicine. Our experience in Greece** 42
 A. Kotini, A.N. Anastasiadis, N. Koutlaki, D. Tamiolakis, P. Anninos, P. Anastasiadis - *Alexandroupolis, GREECE*
 Biomagnetic recording is a technique that provides new insights in the investigation of perinatal disorders and high-risk pregnancies.

Magnetic field profiles in normal human breast during the menstrual cycle 47

P.A. Anninos, A. Giatromanolaki, A. Kotini, L. Sivridis, N. Koutlaki, P. Anastasiadis - *Alexandroupolis, GREECE*

The phenomenon of superconductivity to detect subtle magnetic fields produced by living normal breast tissue during the menstrual cycle was studied.

Carbon dioxide laser treatment of Bartholin's gland cyst 50

N.M. de Góis Speck, P.N. Belfort, P. Mendes, H.J. Kang, J.C.L. Ribalta - *São Paulo, BRAZIL*

Laser surgery is an effective treatment for Bartholin's gland cyst.

EXPERIMENTAL RESEARCH**Effects of simultaneous treatment with estrogen and testosterone on the uterus of female adult rats** 52

A.M.G. Ramos, A.F. Camargos, F.E.L. Pereira - *Vitória, ES (BRAZIL)*

Testosterone associated with estrogen induces metoplasia of the endometrial and cervical epithelium and enhances inflammatory pelvic disease in female rats.

CASE REPORTS**Dramatic relief of chronic pelvic pain with treatment with sympathomimetic amines - case report** 55

J.H. Check, C. Wilson - *Camden, NJ (USA)*

A woman with chronic pelvic pain of unknown origin showed dramatic and persistent relief of pain following treatment with sympathomimetic amines.

Giant fibrothecoma - an interesting case 57

J.L. Garrido, I. Beytia, M. De Frías, T. Arrocha, A. Ganci - *Panama City, PANAMA*

A good outcome in a 45-year-old woman with a giant fibrothecoma left untreated for two years is reported

Tricyclic antidepressant-induced acute urine retention in a young woman with postpartum depression - case report 60

K. Stamatiou, A. Alevizos, G. Petrakos, I. Lentzas, A. Mariolis, P. Panagopoulos - *Athens, GREECE*

A rare case of acute urinary retention due to simultaneous use of a tricyclic antidepressant and anticholinergic drugs is reported.

Hydrosalpinx as an unusual complication of office hysteroscopy: case report 61

A. Demiroglu, S. Guven, G. Bozdag, T. Gurgan - *Ankara, TURKEY*

A case of hydrosalpinx possibly caused by an office hysteroscopy procedure is reported.

Endometriosis of ureter-induced recurrent urinary tract infections in a premenopausal woman - case report 63

K. Stamatiou, G. Petrakos, A. Alevizos, K. Bovis, A. Economou, P. Panagopoulos, A. Mariolis - *Athens, GREECE*

A case of recurrent urinary tract infection associated with endometriosis of the ureter is reported.
