EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY (ISSN 0392-2936) publishes original peer reviewed works in the fields of female genital cancers and related subjects and also proceedings of gynecologic oncology society meetings all over the world. The Journal is covered by **CURRENT CONTENTS, SCISEARCH, RESEARCH ALERT, INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica, CURRENT ADVANCES IN CANCER RESEARCH, BIOSIS.**

European Journal of Gynaecological Oncology

www.irog.net

General Information

The EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY (ISSN 0392-2936) publishes original peer reviewed work, preferably brief reports, in the fields of female genital cancers and related subjects – prevention, early detection, epidemiology, pathology, diagnosis, management – and also proceedings of Gynaecologic Oncology Society meetings all over the world.

The Journal is covered by CURRENT CONTENTS, SCISEARCH, RESEARCH ALERT, INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica, CURRENT ADVANCES IN CANCER RESEARCH, BIOSIS.

AIMS AND SCOPE

The EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY is dedicated to publishing editorial articles in the “Distinguished Expert Series” and original research papers, case reports, letters to the Editor, book reviews and newsletters.

The Journal was founded in 1980 – the second gynaecologic oncology hyperspecialization journal in the world. Its aim is the diffusion of scientific, clinical and practical progress and knowledge in female neoplastic diseases in an interdisciplinary approach among gynaecologists, oncologists, radiotherapists, surgeons, chemotherapists, pathologists, epidemiologists and so on.

ANNOUNCEMENTS regarding meetings, postgraduate courses and symposia will be accepted six months before publication and will be published free of charge.

BOOK SAMPLES for review should be sent to the Editorial offices in Montréal or in Padova.

COPYRIGHT: the Journal has been registered with the Copyright Clearance Center, Inc. Reproductions are not allowed without the written consent of the Publisher. All photocopy fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA stating the ISSN number, the volume and the first and last page numbers of each article copied.

ADVERTISING INFORMATION: advertising orders and inquiries may be sent to: I.R.O.G. CANADA Inc., Publisher, 4900 Côte St. Luc, Apt. 212, Montréal (Quebec) Canada H3W 2H5, Tél. 514.4893242-4893640, Fax 514.4854513, E-mail: canlux@mgroup-online.com - www.irog.net

RESPONSIBILITY: although every effort is made by the editorial staff and the printer to eliminate misleading or inaccurate information, the publisher accepts no responsibility for the consequences of faulty or incorrect information. The authors recognize that the editor and publisher have no responsibility and are indemnified against any liability or claim that may result from the publication of misleading or incorrect data.

SUBSCRIPTION INFORMATION

The Journal is published bimonthly (January, March, May, July, September and November); one volume per year. Subscriptions start from January and are automatically renewed if not cancelled by the end of September.

Subscriptions include six issues per year plus supplements, monographs and all official communications of Meetings, Courses, Symposia and all scientific activities of Gynaecologic Oncology Societies all over the world.

Subscriptions are entered with prepayment only. The annual subscription is \$390 US for Institutions, \$200 US for Individuals. For airmail add \$30, for receipt add \$10 US. Single copy prepaid cost \$95 US.

Send subscription requests with cheque or credit card payment (Amex - Visa - Diner's - Master Card) to I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, Montréal, Québec H3W 2H3 Canada. **Only US Funds are accepted.** No bank transfers.

Claims for missing issues can be honoured up to six months. **Changes of address:** allow six weeks for all changes to become effective. All communications should include both old and new addresses (with postal codes) – better if accompanied by a mailing label from a recent issue – and should be sent to the printer: La Garangola, Via E. Dalla Costa 6, 35129 Padova (Italy) or by Fax +39.049.7806580. Claims should be made within six months of publication date.

Duplicate copies will not be sent to replace those undelivered through failure to notify of change of address.

Single copies and back issue and volume information is available from the printer, La Garangola, Padova, Tel. +39.049.8075557, Fax +39.049.7806580. Certain back issues may only be available as photocopies of the originals.

All other business correspondence including orders for offprints and advertising space and **any communication and requests should be addressed to** I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, MONTRÉAL, QUÉBEC H3W 2H3 (Canada), tel. (514) 4893242, fax (514) 4854513.

IN ALL LEGAL MATTERS THE COURT OF MONTREAL IS COMPETENT.

Instructions to Authors

SUBMISSION OF MANUSCRIPTS

Papers should be submitted to A. ONNIS Editor-in-Chief of the EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY, 4900 Côte St. Luc, Apt. 212 MONTREAL, QUÉBEC H3W 2H3 (Canada) - Tel. +514-4893242 - Fax +514-4854513, or Galleria Storie 2/A - 35123 PADOVA (Italy) - Fax +39-049-8752018.

Editorial articles for publication in the "Distinguished Expert Series" should be submitted to P. Bószé, Editor-in-Chief of this section, Department of Gynecology, Saint Stephan Hospital, 1096 Budapest, Nagyvárad tér 1, Telephone (36-1) 275 2172, Fax (36-1) 275 2172, E-mail: bosze@axelero.hu

When a manuscript is submitted, an acknowledgement card is sent to the corresponding author within two or three weeks.

Submitted papers are reviewed by the Editor-in-Chief and his Peer Referees. Authors may be required to modify the manuscript according to the reviewers' suggestions.

Manuscripts accepted for publication will be copyedited by the editorial staff for typographical and grammatical mistakes and to guarantee clarity and conciseness.

Publication time will be the shortest possible based on scientific and publishing needs. **Manuscripts submitted for publication cannot be returned.**

Published papers will become property of the Journal and copyrighted under I.R.O.G. CANADA Inc.

After six months no grievances will be accepted regarding published articles.

All statements are the responsibility of the authors. Product dosages, indications and methods referred to in the papers reflect the author's experience. No responsibility is assumed by the Editor-in-Chief or the Publisher for any damage from use of any products, operation methods or instructions contained in the published materials.

Trade names, trademarks, etc. are protected by the law and regulations. The Editor-in-Chief and the Publisher cannot accept any legal responsibility for any errors or omissions that may be made in press, particularly for information about drug dosage and application thereof contained in the Journal. Consult the prescribing information before administering any drug.

MANUSCRIPT REQUIREMENTS

The Journal follows the "Uniform requirements for manuscripts submitted to biomedical journals" published in the *New England Journal of Medicine* 1991, 324, 424-8 and in the *British Medical Journal* 1991, 302.

Three *manuscripts* typed and double spaced should be submitted by mail (not by email) **with an electronic disk, formatted in Word for Macintosh or Windows, version 6.0.** Manuscripts without an electronic disk will not be accepted. **A cover letter signed by all authors must state that all authors who have participated in the work take responsibility for the manuscript which has never been published or submitted for publication elsewhere.** Without a cover letter the publication will not be possible. Name, address and phone/fax numbers of the *Corresponding Author*, responsible for revision and approval of the proofs, should be indicated. **Full-length articles should not exceed 8 printed pages including tables and references.**

After the *title page* (full title and names of authors, institutions, eventual acknowledgement for financial support, running title of no more than 60 characters or spaces), original works should be arranged in the conventional order: **Summary** (*purpose of investigation, methods, results, conclusion - about 150 words*), **Key words**, **Content** (a 20-word summary), **Introduction**, **Materials and Methods**, **Results**, **Discussion**, **Conclusion**, **Acknowledgement** (if any), **References**, **Tables**, **Legends**.

Authors should supply a complete address for reprint requests.

In the text only standard abbreviations can be used and must be avoided in the title. The full term for which an abbreviation stands should precede its first use in the summary and text unless it is a standard unit of measurement.

Authors must give their complete professional identifications and affiliations, including all academic titles and positions.

Letters to the editor should be brief (500 words or less) and offer objective, constructive and educational criticism of published material. The editor reserves the right to publish.

Figures: Two original copies (not negatives) of each figure are requested. Each figure should have a label on the back indicating its number, author's name and top of the figure. Do not write on the back of the figures and do not mount them on cardboard. **If sending colour pictures advise if they must be printed in colour or black and white (colour costs ten times more).**

Legends should be typed on a separate page with Arabic numerals corresponding to the illustrations.

Tables should be titled, typed in double space on separate pages and numbered in Arabic numerals in the order of their first citation in the text. Do not use internal rules. Only standard, universally understood abbreviations should be used.

References should be numbered consecutively in the order in which they are first mentioned in the text. Identify references in the text, tables, and legends by Arabic numerals in parentheses.

Use the style of the examples below, which are based with slight modifications on the format used by the U.S. National Library of Medicine in *Index Medicus*. The titles of journals should be abbreviated according to the style used in *Index Medicus*.

References must be verified by the Author(s) against the original documents.

Examples of correct forms of references are given below:

Articles in Journals: Authors' surname and initials (if more than six names, give six followed by "et al."), Title, Abbreviated Journal Title, Year of Publication, Volume, Issue and first page.

Books: Authors' surname and initials, title of the book and title of chapter, in: Title, Editor(s), Place, Publisher, Year, Page.

Acknowledgments will be limited to appropriate professionals who were contributors to the paper.

PROOFS revised by the editorial staff will be sent to the corresponding author and should be checked and returned within ten days. The corresponding author is responsible for detecting typesetting errors. After this deadline **the proofs will be considered approved.** Only essential corrections should be made; extensive changes will be charged to the authors.

BUSINESS MATTERS

The Journal has no commercial advertisements.

Authors will be expected to contribute to the printing expenses, tables, figures and postage. For every published article a copy of the Journal will be provided free of charge. **Only payments in US dollars will be accepted.** No bank transfers.

Reprints should be requested with the form enclosed with the acceptance letter. No free reprints will be supplied.

DISTINGUISHED EXPERT SERIES

- Ovulatory failure, fertility preservation and reproductive strategies in the setting of gynecologic and non-gynecologic malignancies** 449
K.S. Tewari, P.J. Di Saia - *Orange, CA, USA*

ORIGINAL ARTICLES

- Number and distribution of pelvic lymph nodes and effect of surgical pathologic factors on pelvic lymph node status in patients with early-stage cervical carcinoma treated with radical hysterectomy and pelvic lymph node dissection** 463
B. Piura, A. Rabinovich, M. Friger - *Beer-Sheva, ISRAEL*
In surgically treated cervical carcinoma cases the mean number of removed pelvic nodes per patient was 26.6. Positive nodes were found in 30.7% of the patients with a mean of 3.4 positive nodes per patient. Positive lymph vascular space invasion was the strongest predictor of positive pelvic lymph nodes.
- Do risk factors for epithelial ovarian cancer have an impact on prognosis? Focus on previous pelvic surgery and reproductive variables** 467
A. Kjærbye-Thygesen, K. Frederiksen, E.V. Høgdall, C.K. Høgdall, J. Blaakær, S. Krüger Kjær - *Aarhus, DENMARK*
Previous pelvic surgery and increasing number of lifetime ovulation-years were associated with respectively improved and decreased survival of patients with epithelial ovarian cancer Stage III.
- Telomerase activity and the subunit of telomerase in hydatidiform mole and their relationship with the development of postmolar tumor** 473
F. Wang, H. Huang, X. Kang, B. Chen, Y. Li - *Zhanjiang, PEOPLE'S REPUBLIC OF CHINA*
For gestational trophoblastic diseases telomerase activity is associated with serum hCG levels but is not related to other clinical risk factors.
- Influence of diabetes mellitus and nodal distribution in endometrial cancer and correlation to clinico-pathological prognostic factors** 477
E. Steiner, M. Schmidt, W. Weikel, H. Koelbl - *Ludwigshafen, GERMANY*
The relationships between the distribution of nodal disease, clinico-pathological patterns and recurrence and survival in surgically staged cases of endometrial cancer are described.
- Prognostic significance of fascin expression in endometrioid carcinoma** 481
S. Kabukcuoglu, U. Oner, S.S. Ozalp, E. Dundar, O.T. Yalcin, E. Colak - *Eskisehir, TURKEY*
The dynamic role of actin bundling protein fascin in generating and maintaining endometrial neoplasms is considered.
- Preoperative diagnosis of 221 consecutive ovarian masses: scoring system and expert evaluation** 487
C. Romagnolo, G. Trivella, M. Bonacina, M. Fornalè, T. Maggino, E. Ferrazzi - *Milan, ITALY*
In the diagnosis of pelvic masses, an easy sonographic descriptive scoring system is not significantly lower in accuracy than the expertise achieved by a gynaecologist with sonographic skills.
- Expression of the epidermal growth factor system in endometrial cancer after adjuvant tamoxifen treatment for breast cancer** 490
G. Androutopoulos, G. Adonakis, M. Gkermpesi, P. Gkogkos, P. Ravazoula, G. Kourounis - *Rion, GREECE*
Endometrial cancer after tamoxifen treatment: a clinicopathologic study.
- Analysis of the relationship between cancer procoagulant activity and PCNA and Ki-67 expression in cases of common and cellular uterine leiomyomas** 495
Slawomir D. Szajda, Marcin Józwiak, Mariola Sulkowska, Ewa Chabielska, Stanislaw Sulkowski, Maciej Józwiak - *Białystok, POLAND*
Cellular leiomyomas do not differ in the serum or the intratumor CP activity from common leiomyomas, whereas there is a relationship of intratumor CP activity with PCNA expression.

- CD24 expression is a poor prognostic marker in endometrial carcinoma** 500
 N. Karahan, M. Güney, B. Oral, N. Kapucuoglu, T. Mungan - *Isparta, TURKEY*
 CD24 expression in endometrial carcinoma as detected by immunohistochemistry might be a new marker for a more aggressive endometrial cancer biology.

- Endometrial carcinoma and diabetes revisited** 505
 N. Papanas, A. Giatromanolaki, G. Galazios, E. Maltezos, E. Sivridis - *Alexandroupolis, GREECE*
 Diabetic patients with endometrial carcinoma do not differ from non-diabetic patients in tumor characteristics, clinical risk factors and survival.

CASE REPORTS

- Malignant mixed Müllerian tumor with heterologous component arising in the fallopian tube - a case report** 509
 G. Hudelist, K. Unterrieder, O. Kandolf, G. Alpi, S. Pucher, G. Pollak, K. Czerwenka, J. Keckstein - *Vienna, AUSTRIA*
 Primary malignant mixed Müllerian tumors (MMMT) of the fallopian tube are extreme rarities in gynecologic oncology. A case of FIGO Stage II primary fallopian MMT with heterologous tumor portion is reported.

- A new approach to treatment of early-stage cervical carcinoma: entire laparoscopic abdominal radical hysterectomy with bilateral pelvic lymphadenectomy without vaginal cuff closure - case reports** 513
 B. Sert, V.M. Abeler, A. Dørum, C.G. Trope - *Oslo, NORWAY*
 A new technique of laparoscopic radical hysterectomy without vaginal cuff closure is described.

- Gorlin syndrome associated with basal cell carcinoma of the vulva: A case report** 519
 M. Giuliani, L. Di Stefano, G. Zoccali, E. Angelone, P. Leocata, G. Mascaretti - *L'Aquila, ITALY*
 Gorlin syndrome, linked to PTCH gene mutation, can be transmitted by parents or can occur spontaneously.

- Refractory metastatic choriocarcinoma treated surgically with polychemotherapy - case report** 523
 M. Petronijevic, S. Vrzic-Petronijevic, V. Boskovic, D. Bratic, Lj. Vicovac, M. Bozic - *Zemun, SERBIA AND MONTENEGRO*
 The course of treatment of refractory metastatic choriocarcinoma treated surgically and with polychemotherapy is presented.

- Fallopian tube carcinoma: incidental finding during surgery for acute pelvic inflammatory disease - case report** 526
 F. Puig, M. Lapresta, A. Lanzon, R. Crespo - *Zaragoza, SPAIN*
 The symptoms of fallopian tube carcinoma are non-specific and often result in misdiagnoses that can lead to delays in treatment.

- Management of a case of primary vaginal cancer with irreducible massive uterine prolapse - a case report** 528
 A. Karateke, S. Tugrul, Y. Yakut, A. Gürbüz, C. Çam - *Istanbul, TURKEY*
 Management of the case of a woman with a huge irreducible uterovaginal prolapse and Stage II vaginal carcinoma is presented.

- Robotic-assisted laparoscopic radical hysterectomy (Piver type III) with pelvic node dissection - case report** 531
 B.M. Sert, V.M. Abeler - *Oslo, NORWAY*
 The first robotic-assisted radical hysterectomy (Piver type III) and bilateral pelvic lymph node dissection for Stage Ib1 cervical carcinoma are described.

- Incidental finding of a malignant peritoneal mesothelioma in an inguinal hernia sac: Report of a case** 534
 P. Chatzipantelis, E. Kairi-Vassilatou, V. Smyrniotis, A. Pafiti - *Athens, GREECE*
 Clinicopathological presentation of a malignant peritoneal mesothelioma in an inguinal hernia sac with emphasis on the differential diagnosis with other malignancies.

Squamous cell carcinoma arising in a mature cystic teratoma of the ovary with synchronous invasive lobular breast cancer: case report

537

G.M. Filippakis, E.E. Lagoudianakis, M. Genetzakis, P. Antonakis, A. Papadima, A. Boussioutou, V. Katergiannakis, A. Manouras - *Athens, GREECE*

The first report in the literature of a simultaneously occurring squamous cell carcinoma arising in a mature cystic teratoma and invasive lobular carcinoma of the breast is presented.

ERRATA - CORRIGE**Impact of morbid obesity in surgical management of endometrial cancer: surgical morbidity, clinical and pathological aspects** - S. Erkanli¹, F. Kayaselçuk², T. Bagis¹, E. Kuşçu¹ - *Adana, TURKEY*

¹Department of Obstetrics and Gynecology, ²Department of Pathology, Adana (Turkey)

Vol. XXVII, n. 4, 2006, page 401

Errata: ¹Department of Obstetrics and Gynecology, ²Department of Pathology, Adana (Turkey)

Corrige: ¹Department of Obstetrics and Gynecology, ²Department of Pathology, Baskent University School of Medicine, Adana (Turkey)

Erratum: A paper by D.C. Dale published in the EJGO 2004, 25, 133-144 entitled "The benefits of haematopoietic growth factors in the management of gynaecological oncology" inadvertently omitted an acknowledgement of editorial assistance of Jackie Williams from Gardiner-Caldwell Communications and whose services were paid for by Amgen Europe.
