## General Information

The EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY (ISSN 0392-2936) publishes original peer reviewed work, preferably brief reports, in the fields of female genital cancers and related subjects – prevention, early detection, epidemiology, pathology, diagnosis, management – and also proceedings of Gynaecologic Oncology Society meetings all over the world.

The Journal is covered by CURRENT CONTENTS, SCISEARCH, RESEARCH ALERT, INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica, CURRENT ADVANCES IN CANCER RESEARCH, BIOSIS.

### AIMS AND SCOPE

The EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY is dedicated to publishing editorial articles in the “Distinguished Expert Series” and original research papers, case reports, letters to the Editor, book reviews and newsletters.

The Journal was founded in 1980 – the second gynaecologic oncology hyperspecialization journal in the world. Its aim is the diffusion of scientific, clinical and practical progress and knowledge in female neoplastic diseases in an interdisciplinary approach among gynaecologists, oncologists, radiotherapists, surgeons, chemotherapists, pathologists, epidemiologists and so on.

**ANNOUNCEMENTS** regarding meetings, postgraduate courses and symposia will be accepted six months before publication and will be published free of charge.

**BOOK SAMPLES** for review should be sent to the Editorial offices in Montréal or in Padova.

**COPYRIGHT:** the Journal has been registered with the Copyright Clearance Center, Inc. Reproductions are not allowed without the written consent of the Publisher. All photocopy fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA stating the ISSN number, the volume and the first and last page numbers of each article copied.

**ADVERTISING INFORMATION:** advertising orders and inquiries may be sent to: I.R.O.G. CANADA Inc., Publisher, 4900 Côte St. Luc, Apt. 212, Montréal (Quebec) Canada H3W 2H3, Tél. 514.4893242-4893640, Fax 514.4854513, E-mail: canlux@mggroup-online.com - www.irog.net

**RESPONSIBILITY:** although every effort is made by the editorial staff and the printer to eliminate misleading or inaccurate information, the publisher accepts no responsibility for the consequences of faulty or incorrect information. The authors recognize that the editor and publisher have no responsibility and are indemnified against any liability or claim that may result from the publication of misleading or incorrect data.

### SUBSCRIPTION INFORMATION

The Journal is published bimonthly (January, March, May, July, September and November); one volume per year. Subscriptions start from January and are automatically renewed if not cancelled by the end of September.

Subscriptions include six issues per year plus supplements, monographs and all official communications of Meetings, Courses, Symposia and all scientific activities of Gynaecologic Oncology Societies all over the world.

**Subscriptions are entered with prepayment only.** The annual subscription is \$390 US for Institutions, \$200 US for Individuals. For airmail add \$30, for receipt add \$10 US. Single copy prepaid cost \$95 US.

Send subscription requests with cheque or credit card payment (Amex - Visa - Diner's - Master Card) to I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, Montréal, Québec H3W 2H3 Canada. **Only US Funds are accepted.** No bank transfers.

**Claims** for missing issues can be honoured up to six months. **Changes of address:** allow six weeks for all changes to become effective. All communications should include both old and new addresses (with postal codes) – better if accompanied by a mailing label from a recent issue – and should be sent to the printer: La Garangola, Via E. Dalla Costa 6, 35129 Padova (Italy) or by Fax +39.049.7806580. Claims should be made within six months of publication date.

Duplicate copies will not be sent to replace those undelivered through failure to notify of change of address.

Single copies and back issue and volume information is available from the printer, La Garangola, Padova, Tel. +39.049.8075557, Fax +39.049.7806580. Certain back issues may only be available as photocopies of the originals.

All other business correspondence including orders for offprints and advertising space and **any communication and requests should be addressed to** I.R.O.G. CANADA Inc., 4900 Côte St. Luc, Apt. 212, MONTRÉAL, QUÉBEC H3W 2H3 (Canada), tel. (514) 4893242, fax (514) 4854513.

IN ALL LEGAL MATTERS THE COURT OF MONTREAL IS COMPETENT.

## Instructions to Authors

### SUBMISSION OF MANUSCRIPTS

Papers should be submitted to A. ONNIS Editor-in-Chief of the EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY, 4900 Côte St. Luc, Apt. 212 MONTREAL, QUÉBEC H3W 2H3 (Canada) - Tel. +514-4893242 - Fax +514-4854513, or Galleria Storie 2/A - 35123 PADOVA (Italy) - Fax +39-049-8752018.

Editorial articles for publication in the "Distinguished Expert Series" should be submitted to P. Bószé, Editor-in-Chief of this section, Department of Gynecology, Saint Stephan Hospital, 1096 Budapest, Nagyvárad tér 1, Telephone (36-1) 275 2172, Fax (36-1) 275 2172, E-mail: bosze@axelero.hu

When a manuscript is submitted, an acknowledgement card is sent to the corresponding author within two or three weeks.

Submitted papers are reviewed by the Editor-in-Chief and his Peer Referees. Authors may be required to modify the manuscript according to the reviewers' suggestions.

Manuscripts accepted for publication will be copyedited by the editorial staff for typographical and grammatical mistakes and to guarantee clarity and conciseness.

**Publication time will be the shortest possible based on scientific and publishing needs. Manuscripts submitted for publication cannot be returned.**

Published papers will become property of the Journal and copyrighted under I.R.O.G. CANADA Inc.

After six months no grievances will be accepted regarding published articles.

All statements are the responsibility of the authors. Product dosages, indications and methods referred to in the papers reflect the author's experience. No responsibility is assumed by the Editor-in-Chief or the Publisher for any damage from use of any products, operation methods or instructions contained in the published materials.

Trade names, trademarks, etc. are protected by the law and regulations. The Editor-in-Chief and the Publisher cannot accept any legal responsibility for any errors or omissions that may be made in press, particularly for information about drug dosage and application thereof contained in the Journal. Consult the prescribing information before administering any drug.

### MANUSCRIPT REQUIREMENTS

The Journal follows the "Uniform requirements for manuscripts submitted to biomedical journals" published in the *New England Journal of Medicine* 1991, 324, 424-8 and in the *British Medical Journal* 1991, 302.

Three **manuscripts** typed and double spaced should be submitted by mail (not by email) **with an electronic disk, formatted in Word for Macintosh or Windows, version 6.0**. Manuscripts without an electronic disk will not be accepted. **A cover letter signed by all authors must state that all authors who have participated in the work take responsibility for the manuscript which has never been published or submitted for publication elsewhere.** Without a cover letter the publication will not be possible. Name, address and phone/fax numbers of the **Corresponding Author**, responsible for revision and approval of the proofs, should be indicated. **Full-length articles should not exceed 8 printed pages including tables and references.**

After the **title page** (full title and names of authors, institutions, eventual acknowledgement for financial support, running title of no more than 60 characters or spaces), original works should be arranged in the conventional order: **Summary** (purpose of investigation, methods, results, conclusion - about 150 words), **Key words**, **Content** (a 20-word summary), **Introduction, Materials and Methods, Results, Discussion, Conclusion, Acknowledgement** (if any), **References, Tables, Legends**.

Authors should supply a complete address for reprint requests.

In the text only standard abbreviations can be used and must be avoided in the title. The full term for which an abbreviation stands should precede its first use in the summary and text unless it is a standard unit of measurement.

**Authors** must give their complete professional identifications and affiliations, including all academic titles and positions.

**Letters to the editor** should be brief (500 words or less) and offer objective, constructive and educational criticism of published material. The editor reserves the right to publish.

**Figures:** Two original copies (not negatives) of each figure are requested. Each figure should have a label on the back indicating its number, author's name and top of the figure. Do not write on the back of the figures and do not mount them on cardboard. **If sending colour pictures advise if they must be printed in colour or black and white (colour costs ten times more).**

**Legends** should be typed on a separate page with Arabic numerals corresponding to the illustrations.

**Tables** should be titled, typed in double space on separate pages and numbered in Arabic numerals in the order of their first citation in the text. Do not use internal rules. Only standard, universally understood abbreviations should be used.

**References should be numbered consecutively in the order in which they are first mentioned in the text.** Identify references in the text, tables, and legends by Arabic numerals in parentheses.

Use the style of the examples below, which are based with slight modifications on the format used by the U.S. National Library of Medicine in *Index Medicus*. The titles of journals should be abbreviated according to the style used in *Index Medicus*.

References must be verified by the Author(s) against the original documents.

Examples of correct forms of references are given below:

**Articles in Journals:** Authors' surname and initials (if more than six names, give six followed by "et al."), Title, Abbreviated Journal Title, Year of Publication, Volume, Issue and first page.

**Books:** Authors' surname and initials, title of the book and title of chapter, in: Title, Editor(s), Place, Publisher, Year, Page.

**Acknowledgments** will be limited to appropriate professionals who were contributors to the paper.

**PROOFS** revised by the editorial staff will be sent to the corresponding author and should be checked and returned within ten days. The corresponding author is responsible for detecting typesetting errors. After this deadline **the proofs will be considered approved**. Only essential corrections should be made; extensive changes will be charged to the authors.

### BUSINESS MATTERS

The Journal has no commercial advertisements.

**Authors will be expected to contribute to the printing expenses, tables, figures and postage.** For every published article a copy of the Journal will be provided free of charge. **Only payments in US dollars will be accepted.** No bank transfers.

**Reprints** should be requested with the form enclosed with the acceptance letter. No free reprints will be supplied.

## DISTINGUISHED EXPERT SERIES

- Radical hysterectomy: Past, present, and future** 585  
 H.T. Ng, M.S. Yen, K.C. Chao, C.Y. Chen, C.C. Yuan - *Taipei, TAIWAN*  
 An analysis of radical hysterectomies showed a reduced recurrence rate after modification of the operative technique using a more lateral excision.

## REVIEW ARTICLE

- Characterisation of the promoter region of the human DNA-repair gene *Rad51*** 589  
 L. Hasselbach, S. Haase, D. Fischer, H.-C. Kolberg, H.-W. Stürzbecher - *Luebeck, GERMANY*  
 Regulatory elements of the 5'-flanking region of the DNA-repair gene *Rad51* were analysed to characterise pathological alterations of *Rad51* expression during tumour development.

## ORIGINAL ARTICLES

- Relationship between angiogenesis and grade of histologic differentiation in endometrial adenocarcinoma** 599  
 N.M. de Góis Speck, J. Focchi, A.C. Alves, J.C.L. Ribalta, C.A.B. Osório - *São Paulo, BRAZIL*  
 Slightly differentiated adenocarcinoma presents greater angiogenesis than normal and well-differentiated carcinoma.
- Concomitant chemobrachyradiotherapy with ifosfamide and cisplatin followed by consolidation chemotherapy in the treatment of locally advanced adenocarcinoma or adenosquamous carcinoma of the cervix uteri** 602  
 E. Vrdoljak, T. Boraska Jelavic, Z. Saratlija-Novakovic, W. Hamm - *Frankfurt, GERMANY*  
 Concomitant chemobrachyradiotherapy with ifosfamide and cisplatin followed by consolidation chemotherapy with the same drug combination is an efficient treatment for cases of locally advanced adeno- or adenosquamous carcinoma of the cervix uteri.
- Preoperative chemotherapy with irinotecan and mitomycin for FIGO Stage IIIb cervical squamous cell carcinoma: A pilot study** 605  
 T. Tanaka, K. Kokawa, N. Umesaki - *Wakayama, JAPAN*  
 Unresectable Stage IIIb cervical SCC tumors could be radically removed after preoperative chemotherapy with CPT-11 and MMC.
- E-cadherin expression during progression of squamous intraepithelial lesions in the uterine cervix** 608  
 K. Kaplanis, A. Kiziridou, V. Liberis, C. Destouni, G. Galazios - *Thessaloniki, GREECE*  
 Decreased E-cadherin expression appears to be a useful parameter of malignant potential of cervical lesions.
- Squamous intraepithelial lesion – microinvasive carcinoma of the cervix during pregnancy** 611  
 H. Robova, L. Rob, M. Pluta, J. Kacirek, M. Halaska jr., P. Strnad, D. Schlegerova - *Prague, CZECH REPUBLIC*  
 Management of SIL and microinvasive cancer in pregnancy, assessment punch biopsy and conization risk during pregnancy.
- Angiogenesis in squamous intraepithelial neoplasia of the uterine cervix in HIV-seropositive women** 615  
 K. Jung de Campos, G.R. Focchi, N.V. Martins, N.M. Góis Speck, E.C. Baracat, J.C.L. Ribalta - *São Paulo, BRAZIL*  
 Relationship between mean vascular density in squamous intraepithelial lesions of the uterine cervix in HIV-seropositive and seronegative patients.
- Post-radiation Pap smear for Chinese patients with cervical cancer: a ten-year follow-up** 619  
 C.-R. Chien, L.-L. Ting, C.-Y. Hsieh, M.-S. Lai - *Taipei, TAIWAN*  
 A few of the routine follow-up Pap smears of cervical cancer patients receiving curative radiotherapy turned out to be isolated central recurrences.

- Uterine pathologies in patients undergoing tamoxifen therapy for breast cancer: ultrasonographic, hysteroscopic and histological findings** 623  
 M. Le Donne, M. Lentini, L. De Meo, V. Benedetto, M. Misiti - *Messina, ITALY*  
 Ultrasonography alone is useful in asymptomatic patients. Hysteroscopy is more accurate in detecting polyps, hyperplastic and neoplastic changes.
- Adjuvant chemotherapy with paclitaxel and carboplatin in non-endometrioid carcinoma of the uterus** 627  
 G.T. Bozas, A. Bamias, E. Kastritis, A. Rodolakis, G. Vlahos, C.A. Papadimitriou, S. Markaki, M.A. Dimopoulos - *Athens, GREECE*  
 Adjuvant chemotherapy with paclitaxel and carboplatin in patients with non-endometrioid uterine cancer is feasible and possibly prevents distant metastasis.
- Assessment of human papilloma viral load of archival cervical intraepithelial neoplasia by real-time polymerase chain reaction in a Turkish population** 632  
 M.A. Onan, C. Taskiran, G. Bozdayi, A. Biri, O. Erdem, A. Acar, G. Gunaydin, S. Rota, O. Ataoglu, H. Guner - *Ankara, TURKEY*  
 HPV positivity increased significantly with the severity of CIN, but there was no significant correlation with viral load.
- Fascin, an actin-bundling protein expression in cervical neoplasms** 636  
 S. Kabukcuoglu, S.S. Ozalp, U. Oner, M.F. Açikalin, O.T. Yalcin, E. Colak - *Eskisehir, TURKEY*  
 Epithelial fascin expression up-regulated when malignant tumor cell phenotype occurred in the cervix and microvessel count increased at the beginning of tumorigenesis.
- HPV and p53 expression in epithelial ovarian carcinoma** 642  
 E. Kuscu, B.H. Ozdemir, S. Erkanli, A. Haberal - *Ankara, TURKEY*  
 This study looks at the HPV status and p53 expression in epithelial ovarian carcinoma along with their possible correlation.
- Clinical results of a split liquid-based cytology (ThinPrep) study of 4,322 patients in a Turkish institution** 646  
 Z.S. Tuncer, M. Başaran, Y. Sezgin, P. Firat, G. Mocan Kuzey - *Ankara, TURKEY*  
 ThinPrep showed an improved rate of specimen adequacy and increased sensitivity for more significant cervical precursor lesions.
- Cervical cancer in pregnant women: Laparoscopic evaluation before delaying treatment** 649  
 C. Stan, E. Megevand, O. Irion, C. Wang, I. Bruchim, P. Petignat - *Montréal, CANADA*  
 Pregnant women diagnosed with early stage cervical carcinoma should receive a complete evaluation including lymphadenectomy before delaying treatment.
- CASE REPORTS**
- Management of ovarian cysts in pregnancy: A case report** 651  
 F. Patacchiola, N. Collecchio, A. Di Ferdinando, P. Palermo, L. Di Stefano, G. Mascaretti - *L'Aquila, ITALY*  
 A case of a 19-year-old primipara with a twin pregnancy where one embryo was molar is reported.
- Simultaneous endometrioid ovarian and uterine carcinoma diagnosed after an in vitro fertilization procedure - Case report and review of the literature** 654  
 A. Ardavanis, M.V. Karamouzis, A. Alexopoulos, G. Rigatos - *Athens, GREECE*  
 A possible link between fertility drugs and carcinogenesis is investigated.
