CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY (ISSN 0390-6663) publishes original work, preferably brief reports, in the fields of Gynecology, Obstetrics, Fetal Medicine, Gynecological Endocrinology and related subjects. (Fertility and Sterility, Menopause, Uro-gynecology, Ultrasound in Obstetrics and Gynecology, Sexually Transmitted Diseases, Reproductive Biological Section). The Journal is covered by **INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica**.

CLINICAL AND EXPERIMENTAL OBSTETRICS AND GYNECOLOGY is issued every three months in one volume per year by IROG CANADA Inc. Montréal. Printed in Italy by "La Garangola", Tipografia Editrice - Via E. Dalla Costa, 6 - 35129 Padova (Italy).

EDITORIAL ARTICLE

- Action of progesterone receptor modulators on uterine leiomyomas** 165
 N. Ohara - *Kobe, JAPAN*
 Update on action of progesterone receptor modulators in uterine leiomyomas.

ORIGINAL ARTICLES

Reproductive Biology Section

- Improved pregnancy outcome for women with decreased ovarian oocyte reserve and advanced reproductive age by performing in vitro fertilization-embryo transfer** 167
 J.H. Check, J. Pinto, J.R. Liss, J.K. Choe - *Camden, NJ (USA)*
 Live deliveries are possible in women of more advanced reproductive age with diminished egg reserve with in vitro fertilization producing the greatest efficacy.

- Normal pregnancy resulting from a non-pronuclear oocyte at the time of examination for fertilization** 170
 R.O. Burney, J. Gebhardt, Y. Shu, B. Behr, L.M. Westphal - *Stanford, CA (USA)*
 A normal pregnancy from a non-pronuclear oocyte at the fertilization check suggests that these oocytes represent a source of developmentally competent embryos.

General Section

- Inherited thrombophilia screening in Greek women with recurrent fetal loss** 172
 A. Mouggiou, G. Androutopoulos, M. Karakantza, E. Theodori, G. Decavalas, N. Zoumbos - *Rion, GREECE*
 Inherited thrombophilia screening in Greek women with recurrent fetal loss was carried out.

- HPV detection and genotyping as an earlier approach in cervical cancer screening of the female genital tract** 175
 W.M. Krambeck, R.M. Cadid , E.M. Dalmarco, C.M.M. de Cordova - *Blumenau-SC, BRAZIL*
 The aim of this study was to evaluate PCR results of HPV detection as an earlier approach in cervical cancer screening compared to Papanicolaou and colposcopy exams.

- Maternal serum mannose-binding lectin in severe preeclampsia** 179
 N.  elik, H. Ozan - *Bursa, TURKEY*
 Serum mannose-binding lectin was investigated in preeclampsia.

- Association of *Fas-670* gene polymorphism with risk of cervical cancer in North Indian population** 183
 D.M. Kordi Tamandani, R.C. Sobti, M. Shekari - *Chandigarh, INDIA*
 This is the first study to provide evidence for the association of *Fas-670* (A/G) gene polymorphism with the risk of cervical cancer in the North Indian population.

- Silicone gel mammary prostheses: immune pathologies and breastfeeding** 187
 G. Zoccali, N. Lomartire, G. Mascaretti, M. Giuliani - *L'Aquila, ITALY*
 The silicone gel mammary prosthesis as a risk factor for pregnancy was studied comparing a group of pregnant patients with a control group.

- Ultrasound assessment of endometrial thickness: correlation with ovarian stimulation and pregnancy rates in IVF cycles** 190
 D. Giannaris, A. Zourla, C. Chrelias, C. Loghis, D. Kassanos - *Athens, GREECE*
 This study correlates endometrial thickness with IVF outcome in 112 cycles and compares GnRH agonist to antagonist protocols.

- Cranial imaging spectrum in hypertensive disease of pregnancy** 194
 S. Topuz, I. Kaleliođlu, A.C. Iyibozkurt, S Akhan, R. Has, M. Tunaci, L. Ibrahimoglu - *Istanbul, TURKEY*
 CT or MRI findings of 120 patients diagnosed with severe preeclampsia, eclampsia and/or HELLP syndrome are presented.

The effect of buserelin acetate on the uterus of adult rats: morphological aspects	198
C.R. Trindade, A.F. Camargos, F.E.L. Pereira - <i>Espírito Santo, BRAZIL</i>	
Buserelin induces a progressive blockade of gonadotrophin secretion in female rats, and treatment cessation leads to accentuated estrogen release.	
Use of GnRH antagonists in ovarian remnant syndrome experimentally induced in rats	202
A. Risvanli, S. Kumru, N. Akpolat, S. Yildiz - <i>Kars, TURKEY</i>	
The use of GnRH antagonists in rats with ovarian remnant syndrome reduced duration of the estrogenic affect.	
Usefulness of symphysis-fundal height in predicting fetal weight in healthy term pregnant women	205
U. Indraccolo, L. Chiocci, P. Rosenberg, L. Nappi, P. Greco - <i>Foligno, ITALY</i>	
Symphysis-fundal height is a useful tool for predicting fetal birthweight in healthy term pregnant women.	
Mid-trimester maternal serum AFP levels in predicting adverse pregnancy outcome	208
P. Gkogkos, G. Androutopoulos, P. Vassilakos, G. Panayiotakis, G. Kourounis, G. Decavalas - <i>Rion, Greece</i>	
Mid-trimester maternal serum AFP levels in predicting adverse pregnancy outcome were investigated.	
Knowledge and general consideration about Pap test screening among women from Finland and Greece	211
G. Iatrakis, S. Zervoudis, P. Peitsidis, M.M. Nikolaki, D. Biba, E. Sotiropoulou - <i>Athens, Greece</i>	
A study sample including 400 women from Finland and Greece concerning the general knowledge about Pap test screening is reported.	
CASE REPORTS	
Pregnancy and delivery following sonohysterographic lysis to treat recurrence after hysteroscopic lysis of severe intrauterine adhesions: a case report	215
F. Taniguchi, H. Suginami - <i>Nara, JAPAN</i>	
Sonohysterographic lysis to treat a recurrent intrauterine adhesion led to tubal patency and achievement of pregnancy, and may be an option.	
A case of body stalk anomaly at 12 weeks of gestation	218
G. Adonakis, N. Spinos, J. Tourikis, H. Hasiotou, K. Loutzi, G. Kourounis - <i>Zante, GREECE</i>	
A case of body stalk anomaly diagnosed in the 1st trimester of pregnancy is described.	
Partial placenta increta and methotrexate therapy: three case reports	221
S. Pinho, S. Sarzedas, S. Pedroso, A. Santos, M. Rebordão, T. Avillez, E. Casal, M. Hermida - <i>Almada, PORTUGAL</i>	
Three cases of partial placenta increta treated successfully with methotrexate are reported.	
Placenta percreta presenting in the first trimester and resulting in severe consumption coagulopathy and hysterectomy: a case report	225
J.C. Papadakis, N. Christodoulou, A. Papageorgiou, M. Rasidaki - <i>Crete, GREECE</i>	
A rare case of placenta percreta, encountered during uterine evacuation in the first trimester, resulting in consumptive hysterectomy is presented.	
A case with diffuse uterine leiomyomatosis and review of the literature	227
A. Coskun, O. Ozdemir, M.A. Vardar, G. Kiran, D. Arikan, C. Ersoz - <i>Kahramanmaras, TURKEY</i>	
Diffuse uterine leiomyomatosis is extremely rare. The case of a patient with a huge uterine mass weighing 2,650 g is presented together with a review of the literature.	
Successful treatment of advanced endometriosis with extremely high CA 125 and moderately elevated CA 15-3 levels	231
M.T. Canda, N. Demir, O. Sezer, L. Doganay - <i>Izmir, TURKEY</i>	
A 29-year-old woman, gravida 1, para 1, was admitted to our clinic with persistent pelvic pain and extremely elevated CA 125 and mildly elevated CA 15-3 levels.
