EUROPEAN JOURNAL OF GYNAECOLOGICAL ONCOLOGY (ISSN 0392-2936) publishes original peer reviewed works in the fields of female genital cancers and related subjects and also proceedings of gynecologic oncology society meetings all over the world. The Journal is covered by **CURRENT CONTENTS, SCISEARCH, RESEARCH ALERT, INDEX MEDICUS, MEDLINE, EMBASE/Excerpta Medica, CURRENT ADVANCES IN CANCER RESEARCH, BIOSIS.**

**DISTINGUISHED EXPERT SERIES**

- Current direction in the prevention of cervical cancer** 433  
 J. Monsonogo - *Paris, FRANCE*  
 In the prevention of cervical cancer the vaccines against papillomavirus have a high efficacy; these prophylactic vaccines protect women against precancerous and cancerous lesions associated with HPV.

**REVIEW ARTICLE**

- Management of recurrent cervical cancer. Review of the literature and case report** 435  
 Ph. Elst, F. Ahankour, W. Tjalma - *Edegem, BELGIUM*  
 A case of complete response after chemotherapy for recurrent cervical cancer is reported together with classification design and flow-chart for the management of recurrent cervical cancer.

**ORIGINAL ARTICLES**

- Genetic imbalance and human papillomavirus states in vulvar squamous cell carcinomas** 442  
 O. Yangling, Z. Shulang, C. Rongoli, L. Bo, C. Lili, W. Xin - *Shenyang, CHINA*  
 Oncogenes located on 3q and 12q are important in the development and progression of HPV-induced carcinomas.
- Primary chemotherapy with sequential docetaxel followed by docetaxel and epirubicin in large operable breast cancer** 447  
 C. Frutuoso, I. Henriques, I. Pazos, E. Abraul, A. Pego, J. Belo, O. Campos, H. Gervásio, C. de Oliveira - *Coimbra, PORTUGAL*  
 Sixty-five patients with operable breast cancer were submitted to primary chemotherapy with sequential docetaxel followed by epirubicin and docetaxel in order to evaluate conservative breast surgery and pathological response.
- Comparison of the molecular classification with FIGO stage and histological grade on endometrial cancer** 451  
 B. Cai, L. Liu, X. W. Xi, Y. P. Zhu, G. Z. Lu, Y. X. Yang, X. P. Wan - *Shanghai, CHINA*  
 To compare the prognostic value of classification based on gene expression profiling, grade, and stage on endometrial cancer.
- Influence of the management of cervical carcinoma on the activity of catalase and glutathione peroxidase in erythrocytes** 461  
 B. Woźniak, C. Mila-Kierzenkowska, K. Kędziora-Kornatowska, T. Drewa, G. Drewa, A. Woźniak, E. Krzyżyńska-Malinowska, R. Makarewicz - *Bydgoszcz, POLAND*  
 Recovery of CAT and GPx activity may prove treatment efficacy, however it is not dependent on treatment modality.
- Loss of OPCML expression and the correlation with CpG island methylation and LOH in ovarian serous carcinoma** 464  
 H. Chen, F. Ye, J. Zhang, W. Lu, Q. Cheng, X. Xie - *Hangzhou, CHINA*  
 Loss of OPCML expression occurs frequently in ovarian serous carcinoma. CpG island methylation and LOH appear to be two mechanisms of OPCML inactivation.
- Urban-rural differences in gynaecological cancer occurrence in a central region of Italy: 1978-1982 and 1998-2002** 468  
 L. Minelli, F. Stracci, T. Cassetti, A. Canosa, M. Scheibel, I.E. Sapia, C. Romagnoli, F. La Rosa - *Perugia, Italy*  
 Compliance to mass screening procedures in urban-rural regions influences occurrence of gynaecological cancers.
- TV sonographic assessment in postmenopausal asymptomatic women** 473  
 P. Tsikouras, G. Galazios, V. Liberis, A. Bouzaki, X. Grapsas, G. Maroulis - *Alexandroupolis, GREECE*  
 Transvaginal sonography is an efficient and safe method for early detection of endometrial pathology in postmenopausal asymptomatic women.

**Survival rate and prognostic factors for patients who underwent surgical procedures for invasive carcinoma of the vulva in Serbia** 477

T. Bozanovic, A. Ljubic, P. Momcilov, S. Milicevic, T. Mostic, S. Petkovic - *Belgrade, SERBIA*

Five-year survival rate and prognostic factors for patients who underwent radical operations for carcinoma of the vulva were studied.

**CASE REPORTS**

**Aggressive angiomyxoma: case report and review of the literature** 480

D.C. Tsarpalis, C.K. Giannakopoulos, A.A. Lagadas, E.G. Toufexi - *Athens, GREECE*

Aggressive angiomyxoma is a rare benign neoplasm of the female pelvis. Surgical excision is the treatment of choice and long-term imaging follow-up of patients is necessary.

**Low-grade endometrial stromal sarcoma of the endocervix. Report of a case and review of the literature** 483

D. Hasiakos, K. Papakonstantinou, A. Kondi-Paphiti, S. Fotiou - *Athens, GREECE*

A description of the clinical and pathological findings of a case of low-grade endometrial stromal sarcoma of the endocervix in a 44-year-old woman and review of the literature are presented. The difficulties in differential diagnoses as well as the therapeutic options are also discussed.

**Late recurrence of ovarian granulosa cell tumor at the retroperitoneal and renal hilum level in a single-kidney patient - case report** 487

M.J. Donate-Moreno, H. Pastor-Navarro, P. Carrión-López, A. Pascual-Martín, A.S. Salinas-Sánchez, J.G. Lorenzo-Romero, L; Polo-Ruiz, J.A. Virseda-Rodríguez - *Albacete, SPAIN*

A case of late recurrence of ovarian granulosa cell tumor at the renal hilum level in a single kidney patient is presented.

**A rare case of extra-adrenal pheochromocytoma masquerading as an ovarian mass treated by laparoscopic surgery** 491

S. Montemurro, E. Ruggieri, E. Maselli, A.F. Zito, F. Chiumarulo, G. Gargano - *Bari, ITALY*

A rare case of a 48-year-old woman affected by an extra-adrenal pheochromocytoma simulating an ovarian tumor successfully treated by laparoscopic resection is presented.

**Two cases of post-radiation osteosarcoma of the sacrum after pelvic irradiation for uterine cervical cancer** 497

J.M. Noh, S.J. Huh - *Seoul, KOREA*

After pelvic radiotherapy for cervical cancer, post-radiation osteosarcoma can develop as a rare and serious long-term sequelae.

**Primary serous carcinoma of the fallopian tube with synchronous cervical epidermoid carcinoma in situ: a case report** 501

S. Ayas, A. Karateke, I. Aköz, G. Kir, I. Yenidede - *Istanbul, TURKEY*

A case of synchronous tumors, serous carcinoma of the fallopian tube and in situ cervical cancer is described.

**Surgical approach to appendiceal mucocele mimicking an adnexal complex mass: case report** 503

C. Scaffa, O. Di Bella, E. Tartaglia, M. Rotondi, F. Lup, E.M. Messalli - *Naples, ITALY*

A rare case of mucocele of the vermiform appendix mimicking an adnexal complex mass and the relative surgical options are reported.

**Primary endodermal sinus tumor of the vulva in a 52-year-old woman with long-term survival: a case report** 506

K. Niwa, K. Onogi, Y. Wu, H. Mori, T. Tamaya - *Gifu-City, JAPAN*

An extremely rare case of primary endodermal sinus tumor of the vulva in a 52-year-old woman is reported.

**Giant bladder leiomyoma presenting as a pelvic mass: a case report** 509

E. Erdemoglu, M. Kamacı - *Ankara, TURKEY*

A rare case of bladder leiomyoma with an unusual presentation as a pelvic mass is reported.

**Malignant mixed müllerian tumor of the fallopian tube coincident with a primary serous carcinoma of the ovary. Case report** 511

L. Nappi, U. Indraccolo, M. Matteo, P. Rosenberg, P. Greco - *Foggia, ITALY*

The coexistence of fallopian malignant mixed müllerian tumor and serous ovarian carcinoma may be difficult to manage after surgery.

**Ascites, high CA-125 and chronic pelvic pain in an unusual clinical manifestation of Enterobius vermicularis ovarian and sigmoid colon granuloma** 513

M. Podgajski, V. Kukura, Z. Duic, S. Gasparov, M. Madzarac - *Zagreb, CROATIA*

Enterobius vermicularis infestation-related lesions can mimic signs and symptoms of gynecologic malignant disease.

- Ovarian gonodblastoma with yolk sac tumor in a young 46, XX female: case report** 516  
 E. Erdemoglu, S. Özen - *Ankara, TURKEY*  
 A case of a pure endodermal sinus tumor in the ovary with gonodblastoma in a 46 XX adolescent female is presented.
- Thecoma associated with pregnancy: a case report** 519  
 F.F. Yanık, E. Kuşçu, D. Eroglu, I. Kahraman, B. Sürücü, A. Çolak - *Ankara, TURKEY*  
 A pregnant woman with a solid ovarian mass and ascites was operated on at the 19<sup>th</sup> gestational week. Diagnosis was a torsioned luteinized thecoma.
- Primary lymphoma of the uterine corpus: An unusual location for a common disease - case report** 522  
 K. Niwa, K. Onogi, W. Yun, Y. Hirose, T. Tamaya - *Gifu-City, JAPAN*  
 A case of a primary uterine corpus lymphoma, diffuse large B-cell type, in a 75-year-old woman is described.
- Does the copper intrauterine device affect serum cancer antigen 125 levels?** 524  
 M. Karaca, S. Kumru, N. Dikmeli - *Elazig, TURKEY*  
 The copper intrauterine device influences serum CA-125 levels.
- Folate and vitamin B12 levels in abnormal pap smears: a case control study** 526  
 H. Yüksel, A.R. Odabasi, G. Çetin, M. Eben, S. Nergiz, E. Onur - *Mugla, TURKEY*  
 Lower serum vitamin B12 levels were associated with abnormal cervical cytology.
- Primary fallopian tube carcinoma in a 51-year-old postmenopausal woman - case report** 531  
 M. Vasiljevic, V. Pazin, O. Dzatic, D. Jeremic - *Belgrade, SERBIA*  
 A rare case of primary adenosquamous cell carcinoma of the fallopian tube is reported.

#### EXPERIMENTAL RESEARCH

- The effects of anastrozole on neonatal rat skin** 534  
 C. Akcali, S. Inaloz, M. Karakok, O.C. Demirtas, N. Kirtak, S. Inaloz - *Gaziantep, TURKEY*  
 The effects of anastrozole administration were investigated on neonatal rat skin.
- Contents index vol. XXVIII, 2007 537
- Authors index vol. XXVIII, 2007 545

#### ERRATA - CORRIGE

##### Ovarian clear cell adenocarcinoma producing alpha-fetoprotein: case report

Vol. XXVIII, n. 3, 2007, page 241

##### Errata:

A. Cetin, Z. Bahat, P. Cikesiz, N. Demirbağ, E. Yavuz - *Istanbul, TURKEY*

##### Corrige:

A. Cetin, Z. Bahat, P. Cilesiz, N. Demirbağ, E. Yavuz - *Istanbul, TURKEY*
